Title: 15.CAT.OP.124 - Course correction fuse integration with artillery systems in the EU.

Start date: 20/10/2015

Time limit for receipt of tenders: 30/11/2015

Contracting authority: European Defence Agency (EDA)

Status: Closed

Call for tenders question list

#	Submission date	Publication date	Question subject	Question	Answer
1	27/10/2015 18:04	29/10/2015 17:48	Clarification about the scope of the study in terms of type of artillery ammunitions, artillery launchers and fire control systems.	The technical specifications mention artillery systems, artillery ammunitions, CCF and Fire Control System in their broad sense, but they also use a few times the word "Howitzer" and "artillery round". CCF solutions for Rocket artillery systems happen to be available or in development in Europe and in non-European countries and their capabilities seem consistent the background described at the beginning of the specifications. Are CCF solutions for Rocket artillery included or excluded from the scope of the study?	29/10/2015 The aim of the study is gun launched ammunitions for Field Artillery. Rocket artillery is outside of the scope of this study.
