Status: Closed

Call for tenders question list

#	Submission date	Publication date	Question subject	Question	Answer
1	21/10/2019 12:08	23/10/2019 16:05	geographic scope of work in Task 2	We are seeking clarification on the geographic scope of the work, particularly Task 2. Is it expected that the analysis under Tasks 2, 3 and 4 cover all EU Member States plus Norway, Switzerland and Iceland, or could a smaller selection of representative countries be included in the analysis? In particular, could a selection of countries be used for the analysis in Task 2 (where achieving a representative sample of users and non-users would require considerable resources)?	23/10/2019 Thank you for your question on the geographical scope of the work, particularly for Task 2. The Call for Tenders indeed defines the geographical scope for Tasks 2, 3 and 4, under section 2.1.; and also for the work in general, under section 2.3. The award criteria of section 3.3 specifically contain assessment of the proposed approach in the methodology to carry out work with such scope.

2	06/11/2019 09:28	06/11/2019 16:31	Involvement of a market research institute	<p>We would need to include a market research institute which probably will receive more than 20 % of the contract value, but their capacity won't be necessary to fulfill the selection criteria. According to our internal rules we will have to issue an invitation to tender for this service. Therefore we can't promise that we will be able to include a certain market research institute in this bid, because we will have to commission / contract the institute which offers the best value for money according to the call for bids. Would it be possible to mention possible market research institute(s) in the proposal and describe that we will have to choose the one which wins the call for tenders? Will we be allowed to subcontract the chosen market research institute, as the Tender Specification say that additional subcontracting will be subject to prior written approval of the Contracting Authority. Do we need to ask the above mentioned potential market research institute(s) to send us the administrative documents (e.g. declaration of honour etc.) even though we can't promise them that</p>	<p>06/11/2019 According to section 1.5 of the Tender specifications, tenderers are required to identify the subcontractors whose share of the contract is above 20 % even if their capacity is not necessary to fulfil the selection criteria. Thus, it is necessary to submit the administrative documents.</p>

				though we can't promise them that we would choose them?	
3	11/11/2019 14:29	11/11/2019 15:16	Task 6 double checking	In task 6 it is understood that the Commission will organise all aspects of the up to four meetings, with the contractor having the responsibility of presenting the work and taking minutes, is this accurate?	11/11/2019 Yes, this is correct, except when the Contractor makes use of the following point described under Task 6: "The Contractor may propose meetings and measures for involving stakeholders or promote the results of the analysis. " In such an instance, the organisation of the meeting and measures will be discussed and agreed with the Contractor.
