1	12/05/2021 15:32	12/05/2021 16:03	Clarification	Please may we ask the following: Regarding the rules on access to procurement, are UK legal entities eligible to bid for this contract? Thanks	12/05/2021 Tenderers (either acting as sole tenderer or as consortium leader or consortium member) shall mandatorily be established in the EU, or in a third country that has a special agreement with the European Union in the field of public procurement on the conditions laid down in that agreement. However, as this procedure is not covered by the Government Procurement Agreement (GPA), a company established in the UK is not eligible to participate in this call for tenders and submit an offer. However, subcontractors proposed by a tenderer can be established outside the EU, including the UK.

So long as the link shows the legal representative's name, would it be acceptable? Could a certificate of incorporation in conjunction with a link to a national database (as provided above) be used to satisfy this section?	20/05/2021 ECHA confirms that a link to a free national database is acceptable as evidence for the selection criteria. A certificate of incorporation, in addition to a link to a national database (e.g. Commercial registry, National Bank of enterprises, etc) will be considered acceptable if they provide all necessary information on the company (e.g. registration number, VAT number, date of creation, legal form and name)
