

## APPENDIX I – e-Submission Guidelines

Tenders must be submitted exclusively via the electronic submission system (e-Submission) available from the TED e-Tendering website<sup>1</sup> and accessible on the Funding and Tenders Opportunities portal (F&T portal)<sup>2</sup>, Tenders submitted in any other way (e.g. e-mail or by letter) will be disregarded.

The e-Submission application allows economic operators to respond to calls for tenders by preparing their tenders electronically in a structured and secured way, and submitting their tenders electronically. The TED e-Tendering is the starting point for launching the e-Submission application.

**Make sure you submit your tender on time: you are advised to start completing your tender early. To avoid any complications with regard to late receipt/non receipt of tenders within the deadline, please ensure that you submit your tender several hours before the deadline. A tender received after the deadline indicated in the procurement documents will be rejected.**

### 1. How to Submit your Tender in e-Submission

You can access e-Submission via the corresponding call for tender in TED e-Tendering, as specified in Section 12 of the Tender Specifications.

In order to have access to e-Submission you will need to login with your/ an [EU Login](#)<sup>3</sup>. In case you don't have an [EU Login](#), you can [create an account](#) at any moment. For more information see the [EU login help](#). After logging in with your EU Login password, the e-Tendering will then display a button 'Submit a tender' and you will be able to access the e-Submission.

In order to submit a tender using e-Submission, economic operators (each member of the group in the case of a joint tender) will need to register in the European Commission's [Participant Register](#) - an online register of organisations participating in EU calls for tenders or proposals. On registering each organisation obtains a Participant Identification Code (PIC, 9-digit number) which acts as its unique identifier in the above register. Instructions on how to create a PIC can be found on this [page](#). Economic operators already registered in the Participant Register shall reuse their existing PICs when preparing tenders in e-Submission.

The time limit for receipt of tenders is indicated in the Invitation to tender. A tender received after the time-limit for receipt of tenders will be rejected. The submission receipt provided by e-Submission with the official date

#### 5. Deadline for receipt of tenders

The tender (including all documents) must be fully uploaded and received before the deadline for receipt of tenders indicated in the Invitation to tender.
