The following section:

16. Selection criteria

[...]

This means that the service contract the candidate refers to could have been started or completed at any time during the indicated period, but it does not necessarily have to be started and completed during that period, nor implemented during the entire period. Candidates are allowed to refer either to service contracts completed within the reference period (although started earlier) or to service contracts not yet completed. In the first case the service contract will be considered in its whole if proper evidence of performance is provided (statement or certificate from the entity which awarded the contract, proof of final payment). In case of service contracts still on-going only the portion satisfactorily completed during the reference period although started earlier will be taken into consideration. This portion will have to be supported by documentary evidence (similarly to service contracts completed) also detailing its value. **In this case, a precise budget and a description of the tasks which were implemented during the reference period (October 2017 – September 2020) shall be added in the detailed description of the project in the application form.**

If a candidate has implemented the service contract in a consortium, the **percentage and the amount** that the candidate has successfully completed must be clear from the documentary evidence, together with a description of the nature of the services provided if the selection criteria relating to the pertinence of the experience have been used. Documentary evidence is not required at the application stage but will be requested with the invitation to tender.

Please adapt the table in the submission form accordingly.
