II. GENERAL CONDITIONS FOR THE SERVICE CONTRACT

II.1. DEFINITIONS

For the purpose of this contract, the following definitions (indicated in *italics* in the text) apply:

'Back office': the internal system(s) used by the parties to process electronic invoices;

'Breach of obligations': failure by the contractor to fulfil one or more of its contractual obligations.

'Confidential information or document': any information or document received by either party from the other or accessed by either party in the context of the *performance of the contract*, that any of the parties has identified in writing as confidential. It may not include information that is publicly available;

'Conflict of interest': a situation where the impartial and objective *performance of the contract* by the contractor is compromised for reasons involving family, emotional life, political or national affinity, economic interest, any other direct or indirect personal interest, or any other shared interest with the contracting authority or any third party related to the subject matter of the contract;

'Creator': means any natural person who contributes to the production of the *result*;

'EDI message' (electronic data interchange): a message created and exchanged through the electronic transfer, from computer to computer, of commercial and administrative data using an agreed standard;

'e-PRIOR': the service-oriented communication platform that provides a series of web services and allows the exchange of standardised electronic messages and documents between the parties. This is done either through web services, with a machine-to-machine connection between the parties' *back office* systems (*EDI messages*), or through a web application (the s*upplier portal*). The Platform may be used to exchange electronic documents (e-documents) such as electronic requests for services, electronic specific contracts, and electronic acceptance of services or electronic invoices between the parties. Technical specifications (i.e. the *interface control document*), details on access and user manuals are available at the following website:
http://ec.europa.eu/dgs/informatics/supplier_portal/documentation/documentation_en.htm

'Force majeure': any unforeseeable, exceptional situation or event beyond the control of the parties that prevents either of them from fulfilling any of their obligations under the contract. The situation or event must not be attributable to error or negligence on the part of the parties or on the part of the subcontractors and must prove to be inevitable despite their exercising due diligence. Defaults of service, defects in equipment or material or delays in making them available, labour disputes, strikes and financial difficulties may not be invoked as *force majeure*, unless they stem directly from a relevant case of *force majeure*;

'Formal notification' (or 'formally notify'): form of communication between the parties made in writing by mail or email, which provides the sender with compelling evidence that the message was delivered to the specified recipient;

'Fraud': an act or omission committed in order to make an unlawful gain for the perpetrator or another by causing a loss to the Union's financial interests, and relating to: i) the use or presentation of false, incorrect or incomplete statements or documents, which has as its effect the misappropriation or wrongful retention of funds or assets from the Union budget, ii) the non-disclosure of information in violation of a specific obligation, with the same effect or iii)

the misapplication of such funds or assets for purposes other than those for which they were originally granted, which damages the Union's financial interests;

'Grave professional misconduct': a violation of applicable laws or regulations or ethical standards of the profession to which a contractor or a related person belongs, including any conduct leading to sexual or other exploitation or abuse, or any wrongful conduct of the contractor or a related person which has an impact on its professional credibility where such conduct denotes wrongful intent or gross negligence.

'Interface control document': the guideline document which lays down the technical specifications, message standards, security standards, checks of syntax and semantics, etc. to facilitate machine-to-machine connection. This document is updated on a regular basis;

'Irregularity': any infringement of a provision of Union law resulting from an act or omission by an economic operator, which has, or would have, the effect of prejudicing the Union's budget.

'Notification' (or 'notify'): form of communication between the parties made in writing including by electronic means;

'Performance of the contract': the execution of tasks and delivery of the purchased services by the contractor to the contracting authority;

'Personnel': persons employed directly or indirectly or contracted by the contractor to perform the contract;

'Pre-existing material': any material, document, technology or know-how, which exists prior to the contractor using it for the production of a *result* in the *performance of the contract*;

'Pre-existing right': any industrial and intellectual property right on *pre-existing material*; it may consist in a right of ownership, a licence right and/or right of use belonging to the contractor, the *creator*, the contracting authority as well as to any other third parties;

'Professional conflicting interest': a situation in which the contractor's previous or ongoing professional activities affect its capacity to perform the contract to an appropriate quality standard.

'Related person': any natural or legal person who is a member of the administrative, management or supervisory body of the contractor, or who has powers of representation, decision or control with regard to the contractor;

'Result': any intended outcome of the *performance of the contract*, whatever its form or nature. A *result* may be further defined in this contract as a deliverable. A *result* may, in addition to newly created materials produced specifically for the contracting authority by the contractor or at its request, also include *pre-existing materials*;

'Supplier portal': the *e-PRIOR* portal, which allows the contractor to exchange electronic business documents, such as invoices, through a graphical user interface.

II.2. ROLES AND RESPONSIBILITIES IN THE EVENT OF A JOINT TENDER

In the event of a joint tender submitted by a group of economic operators and where the group does not have legal personality or legal capacity, one member of the group is appointed as leader of the group.

II.3. SEVERABILITY

Each provision of this contract is severable and distinct from the others. If a provision is or becomes illegal, invalid or unenforceable to any extent, it must be severed from the remainder of the contract. This does not affect the legality, validity or enforceability of any other provisions of the contract, which continue in full force and effect. The illegal, invalid or unenforceable provision must be replaced by a legal, valid and enforceable substitute provision, which corresponds as closely as possible with the actual intent of the parties under the illegal, invalid or unenforceable provision. The replacement of such a provision must be made in accordance with Article II.11. The contract must be interpreted as if it had contained the substitute provision as from its entry into force.

II.4. PERFORMANCE OF THE CONTRACT

II.4.1 The contractor must provide services of high quality standards, in accordance with the state of the art in the industry and the provisions of this contract, in particular the tender specifications and the terms of its tender. Where the Union has the right to make modifications to the *results*, they must be delivered in a format and with the necessary information, which effectively allow such modifications to be made in a convenient manner.

II.4.2 The contractor must comply with the minimum requirements provided for in the tender specifications. This includes compliance with applicable obligations under environmental, social and labour law established by Union law, national law and collective agreements or by the international environmental, social and labour law provisions listed in Annex X to Directive 2014/24/EU[3] and compliance with data protection obligations resulting from Regulation (EU) 2016/679[4] and Regulation (EU) 2018/1725[5].

II.4.3 The contractor must obtain any permit or licence required in the State where the services are to be provided.

II.4.4 All periods specified in the contract are calculated in calendar days, unless otherwise specified.

II.4.5 The contractor must not present itself as a representative of the contracting authority and must inform third parties that it is not part of the European public service.

II.4.6 The contractor is responsible for the *personnel* who carry out the services and exercises its authority over its *personnel* without interference by the contracting authority. The contractor must inform its *personnel* that:

(a) they may not accept any direct instructions from the contracting authority; and

(b) their participation in providing the services does not result in any employment or contractual relationship with the contracting authority.

II.4.7 The contractor must ensure that the *personnel* performing the contract and any future replacement *personnel* possess the professional qualifications and experience required

[4] Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC, OJ L 119, 4.5.2016, p. 1, https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=uriserv:OJ.L_.2016.119.01.0001.01.ENG

[5] Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of individuals with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC, OJ L 295/39 21.11.2018, https://eur-lex.europa.eu/legal-content/EN/TXT/PDF/?uri=CELEX:32018R1725&from=EN

to provide the services, as the case may be on the basis of the selection criteria set out in the tender specifications.

II.4.8 At the contracting authority's reasoned request, the contractor must replace any member of *personnel* who:

(a) does not have the expertise required to provide the services; or

(b) has caused disruption at the premises of the contracting authority.

The contractor bears the cost of replacing its *personnel* and is responsible for any delay in providing the services resulting from the replacement of *personnel*.

II.4.9 The contractor must record and report to the contracting authority any problem that affects its ability to provide the services. The report must describe the problem, state when it started and what action the contractor is taking to resolve it.

II.4.10 The contractor must immediately inform the Contracting authority of any changes in the exclusion situations as declared, according to Article 137 (1) of Regulation (EU) 2018/1046.

II.5. COMMUNICATION BETWEEN THE PARTIES

II.5.1 Form and means of communication

Any communication of information, notices or documents under the contract must:

(a) be made in writing in paper or electronic format in the language of the contract;

(b) bear the contract number;

(c) be made using the relevant communication details set out in Article I.8; and

(d) be sent by mail, email or, for the documents specified in the special conditions, via *e-PRIOR*.

If a party requests written confirmation of an e-mail within a reasonable time, the other party must provide an original signed paper version of the communication as soon as possible.

The parties agree that any communication made by email has full legal effect and is admissible as evidence in judicial proceedings.

II.5.2 Date of communications by mail and email

Any communication is deemed to have been made when the receiving party receives it, unless this contract refers to the date when the communication was sent.

E-mail is deemed to have been received by the receiving party on the day of dispatch of that e-mail, provided that it is sent to the e-mail address indicated in Article I.8. The sending party must be able to prove the date of dispatch. In the event that the sending party receives a non-delivery report, it must make every effort to ensure that the other party actually receives the communication by email or mail. In such a case, the sending party is not held in breach of its obligation to send such communication within a specified deadline.

Mail sent to the contracting authority is deemed to have been received by the contracting authority on the date on which the department responsible referred to in Article I.8 registers it.

Formal notifications are considered to have been received by the receiving party on the date of receipt indicated in the proof received by the sending party that the message was delivered to the specified recipient.

II.5.3 Submission of e-documents via e-PRIOR

If provided for in the special conditions, the exchange of electronic documents (e-documents) such as invoices between the parties is automated through the use of the *e-PRIOR* platform. This platform provides two possibilities for such exchanges: either through web services (machine-to-machine connection) or through a web application (the *supplier portal*).

The contracting authority takes the necessary measures to implement and maintain electronic systems that enable the *supplier portal* to be used effectively.

In the case of machine-to-machine connection, a direct connection is established between the parties' *back offices*. In this case, the parties take the measures necessary on their side to implement and maintain electronic systems that enable the machine-to-machine connection to be used effectively. The electronic systems are specified in the *interface control document*. The contractor (or leader in the case of a joint tender) must take the necessary technical measures to set up a machine-to-machine connection and at its own cost.

If communication via the *supplier portal* or via the web services (machine-to-machine connection) is hindered by factors beyond the control of one party, it must *notify* the other immediately and the parties must take the necessary measures to restore this communication.

If it is impossible to restore the communication within two working days, one party must *notify* the other that alternative means of communication specified in Article II.5.1 will be used until the *supplier portal* or the machine-to-machine connection is restored.

When a change in the *interface control document* requires adaptations, the contractor (or leader in the case of a joint tender) has up to six months from receipt of the *notification* to implement this change. This period can be shortened by mutual agreement of the parties. This period does not apply to urgent measures required by the security policy of the contracting authority to ensure integrity, confidentiality and non-repudiation of information and the availability of *e-PRIOR*, which must be applied immediately.

II.5.4 Validity and date of e-documents

The parties agree that any e-document, including related attachments exchanged via *e-PRIOR*:

(a) is considered as equivalent to a paper document;

(b) is deemed to be the original of the document;

(c) is legally binding on the parties once an *e-PRIOR* authorised person has performed the 'sign' action in *e-PRIOR* and has full legal effect; and

(d) constitutes evidence of the information contained in it and is admissible as evidence in judicial proceedings.

The parties expressly waive any rights to contest the validity of such a document solely on the grounds that communications between the parties occurred through *e-PRIOR* or that the document has been signed through *e-PRIOR*. If a direct connection is established between the parties' *back offices* to allow electronic transfer of documents, the parties agree that an e-document, sent as mentioned in the *interface control document*, qualifies as an *EDI message*.

If the e-document is dispatched through the *supplier portal*, it is deemed to have been legally issued or sent when the contractor (or leader in the case of a joint tender) is able to successfully submit the e-document without any error messages. The generated PDF and XML document for the e-document are considered as a proof of receipt by the contracting authority.

In the event that an e-document is dispatched using a direct connection established between the parties' *back offices*, the e-document is deemed to have been legally issued or sent when its status is 'received' as defined in the *interface control document*.

When using the *supplier portal*, the contractor (or leader in the case of a joint tender) can download the PDF or XML message for each e-document for one year after submission. After this period, copies of the e-documents are no longer available for automatic download from the *supplier portal*.

II.5.5 Authorised persons in e-PRIOR

The contractor submits a request for each person who needs to be assigned the role of 'user' in *e-PRIOR*. These persons are identified by means of the European Communication Authentication Service (ECAS) and authorised to access and perform actions in *e-PRIOR* within the permissions of the user roles that the contracting authority has assigned to them.

User roles enabling these *e-PRIOR* authorised persons to sign legally binding documents such as specific tenders or specific contracts are granted only upon submission of supporting documents proving that the authorised person is empowered to act as a legal representative of the contractor.

II.6. LIABILITY

II.6.1 The contracting authority is not liable for any damage or loss caused by the contractor, including any damage or loss to third parties during or as a consequence of *performance of the contract*.

II.6.2 If required by the relevant applicable legislation, the contractor must take out an insurance policy against risks and damage or loss relating to the *performance of the contract*. It must also take out supplementary insurance as reasonably required by standard practice in the industry. Upon request, the contractor must provide evidence of insurance coverage to the contracting authority.

II.6.3 The contractor is liable for any loss or damage caused to the contracting authority during or as a consequence of *performance of the contract*, including in the event of subcontracting, but only up to an amount not exceeding three times the total amount of the contract. However, if the damage or loss is caused by the gross negligence or wilful misconduct of the contractor or of its *personnel* or subcontractors, as well as in the case of an action brought against the contracting authority by a third party for breach of its intellectual property rights, the contractor is liable for the whole amount of the damage or loss.

II.6.4 If a third party brings any action against the contracting authority in connection with the *performance of the contract*, including any action for alleged breach of intellectual property rights, the contractor must assist the contracting authority in the legal proceedings, including by intervening in support of the contracting authority upon request. If the contracting authority's liability towards the third party is established and that such liability is caused by the contractor during or as a consequence of the *performance of the contract*, Article II.6.3 applies.

II.6.5 If the contractor is composed of two or more economic operators (i.e. who submitted a joint tender), they are all jointly and severally liable to the contracting authority for the *performance of the contract*.

II.6.6 The contracting authority is not liable for any loss or damage caused to the contractor during or as a consequence of *performance of the contract*, unless the loss or damage was caused by wilful misconduct or gross negligence of the contracting authority.

II.7. CONFLICT OF INTEREST AND PROFESSIONAL CONFLICTING INTERESTS

II.7.1 The contractor must take all the necessary measures to prevent any situation of *conflict of interest* or *professional conflicting interest.*

II.7.2 The contractor must *notify* the contracting authority in writing as soon as possible of any situation that could constitute a *conflict of interest* or a *professional conflicting interest* during the *performance of the contract*. The contractor must immediately take action to rectify the situation.

The contracting authority may do any of the following:

(a) verify that the contractor's action is appropriate;

(b) require the contractor to take further action within a specified deadline;

II.7.3 The contractor must pass on all the relevant obligations in writing to:

(a) its *personnel*;

(b) any natural person with the power to represent it or take decisions on its behalf;

(c) third parties involved in the *performance of the contract*, including subcontractors.

The contractor must also ensure that the persons referred to above are not placed in a situation, which could give rise to conflicts of interest.

II.8. CONFIDENTIALITY

II.8.1 The contracting authority and the contractor must treat with confidentiality any information or documents, in any format, disclosed in writing or orally in relating to the *performance of the contract* and identified in writing as confidential.

II.8.2 Each party must:

(a) not use *confidential information or documents* for any purpose other than to perform its obligations under the contract without the prior written agreement of the other party;

(b) ensure the protection of such *confidential information or documents* with the same level of protection as its own *confidential information* and in any case with due diligence;

(c) not disclose, directly or indirectly, *confidential information or documents* to third parties without the prior written agreement of the other party.

II.8.3 The confidentiality obligations set out in this Article are binding on the contracting authority and the contractor during the *performance of the contract* and for as long as the information or documents remain confidential unless:

(a) the disclosing party agrees to release the receiving party from the confidentiality obligation earlier;

(b) the *confidential information or documents* become public through other means than a breach of the confidentiality obligation;

(c) the applicable law requires the disclosure of the *confidential information or documents*.

II.8.4 The contractor must obtain from any natural person with the power to represent it or take decisions on its behalf, as well as from third parties involved in the *performance of the contract*, a commitment that they will comply with this Article. At the request of the contracting authority, the contractor must provide a document providing evidence of this commitment.

II.9. PROCESSING OF PERSONAL DATA

II.9.1 Processing of personal data by the contracting authority

Any personal data included in or relating to the contract, including its implementation, shall be processed in accordance with Regulation (EU) 2018/1725. Such data shall be processed solely for the purposes of the implementation, management and monitoring of the contract by the data controller.

The contractor or any other person whose personal data is processed by the data controller in relation to this contract has specific rights as a data subject under Chapter III (Articles 14-25) of Regulation (EU) 2018/1725, in particular the right to access, rectify or erase their personal data and the right to restrict or, where applicable, the right to object to processing or the right to data portability.

Should the contractor or any other person whose personal data is processed in relation to this contract have any queries concerning the processing of its personal data, it shall address itself to the data controller. They may also address themselves to the Data Protection Officer of the data controller. They have the right to lodge a complaint at any time to the European Data Protection Supervisor.

Details concerning the processing of personal data are available in the data protection notice referred to in Article I.9.

II.9.2 Processing of personal data by the contractor

The processing of personal data by the contractor shall meet the requirements of Regulation (EU) 2018/1725 and be processed solely for the purposes set out by the controller.

The contractor shall assist the controller for the fulfilment of the controller's obligation to respond to requests for exercising rights of person whose personal data is processed in relation to this contract as laid down in Chapter III (Articles 14-25) of Regulation (EU) 2018/1725. The contractor shall inform without delay the controller about such requests.

The contractor may act only on documented written instructions and under the supervision of the controller, in particular with regard to the purposes of the processing, the categories of data that may be processed, the recipients of the data and the means by which the data subject may exercise its rights.

The contractor shall grant personnel access to the data to the extent strictly necessary for the implementation, management and monitoring of the contract. The contractor must ensure that personnel authorised to process personal data has committed itself to confidentiality or is under appropriate statutory obligation of confidentiality in accordance with the provisions of Article II.8.

The contractor shall adopt appropriate technical and organisational security measures, giving due regard to the risks inherent in the processing and to the nature, scope, context and purposes of processing, in order to ensure, in particular, as appropriate:

(a) the pseudonymisation and encryption of personal data;

(b) the ability to ensure the ongoing confidentiality, integrity, availability and resilience of processing systems and services;

(c) the ability to restore the availability and access to personal data in a timely manner in the event of a physical or technical incident;

(d) a process for regularly testing, assessing and evaluating the effectiveness of technical and organisational measures for ensuring the security of the processing;

(e) measures to protect personal data from accidental or unlawful destruction, loss, alteration, unauthorised disclosure of or access to personal data transmitted, stored or otherwise processed.

The contractor shall notify relevant personal data breaches to the controller without undue delay and at the latest within 48 hours after the contractor becomes aware of the breach. In such cases, the contractor shall provide the controller with at least the following information:

(a) nature of the personal data breach including where possible, the categories and approximate number of data subjects concerned and the categories and approximate number of personal data records concerned;

(b) likely consequences of the breach;

(c) measures taken or proposed to be taken to address the breach, including, where appropriate, measures to mitigate its possible adverse effects.

The contractor shall immediately inform the data controller if, in its opinion, an instruction infringes Regulation (EU) 2018/1725, Regulation (EU) 2016/679, or other Union or Member State data protection provisions as referred to in the tender specifications.

The contractor shall assist the controller for the fulfilment of its obligations pursuant to Article 33 to 41 under Regulation (EU) 2018/1725 to:

(a) ensure compliance with its data protection obligations regarding the security of the processing, and the confidentiality of electronic communications and directories of users;

(b) notify a personal data breach to the European Data Protection Supervisor;

(c) communicate a personal data breach without undue delay to the data subject, where applicable;

(d) carry out data protection impact assessments and prior consultations as necessary.

The contractor shall maintain a record of all data processing operations carried on behalf of the controller, transfers of personal data, security breaches, responses to requests for exercising rights of people whose personal data is processed and requests for access to personal data by third parties.

The contracting authority is subject to Protocol 7 of the Treaty on the Functioning of the European Union on the privileges and immunities of the European Union, particularly as regards the inviolability of archives (including the physical location of data and services as set out in Article I.9.2) and data security, which includes personal data held on behalf of the contracting authority in the premises of the contractor or subcontractor.

The contractor shall notify the contracting authority without delay of any legally binding request for disclosure of the personal data processed on behalf of the contracting authority made by any national public authority, including an authority from a third country. The contractor may not give such access without the prior written authorisation of the contracting authority.

The duration of processing of personal data by the contractor will not exceed the period referred to in Article II.24.2. Upon expiry of this period, the contractor shall, at the choice of the controller, return, without any undue delay in a commonly agreed format, all personal data processed on behalf of the controller and the copies thereof or shall effectively delete all personal data unless Union or national law requires a longer storage of personal data.

For the purpose of Article II.10, if part or all of the processing of personal data is subcontracted to a third party, the contractor shall pass on the obligations referred to in Articles I.9.2 and II.9.2 in writing to those parties, including subcontractors. At the request of the contracting authority, the contractor shall provide a document providing evidence of this commitment.

II.10. SUBCONTRACTING

II.10.1 The contractor must not subcontract and have the contract performed by third parties beyond the third parties already mentioned in its tender without prior written authorisation from the contracting authority.

II.10.2 Even if the contracting authority authorises subcontracting, the contractor remains bound by its contractual obligations and is solely responsible for the *performance of this contract*.

II.10.3 The contractor must ensure that the subcontract does not affect the rights of the contracting authority under this contract, particularly those under Articles II.8, II.13 and II.24.

II.10.4 The contracting authority may request the contractor to replace a subcontractor found to be in a situation provided for in points (d) and (e) of Article II.18.1.

II.11. AMENDMENTS

II.11.1 Any amendment to the contract must be made in writing before all contractual obligations have been fulfilled.

II.11.2 Any amendment must not make changes to the contract that might alter the initial conditions of the procurement procedure or result in unequal treatment of tenderers.

II.12. ASSIGNMENT

II.12.1 The contractor must not assign the rights and obligations arising from the contract, including claims for payments or factoring, without prior written authorisation from the contracting authority. In such cases, the contractor must provide the contracting authority with the identity of the intended assignee.

II.12.2 Any right or obligation assigned by the contractor without authorisation is not enforceable against the contracting authority.

II.13. INTELLECTUAL PROPERTY RIGHTS

II.13.1 Ownership of the rights in the results

The Union acquires irrevocably worldwide ownership of the *results* and of all intellectual property rights on the newly created materials produced specifically for the Union under the

contract and incorporated in the *results*, without prejudice however to the rules applying to *pre-existing rights* on *pre-existing materials*, as per Article II.13.2.

The intellectual property rights so acquired include any rights, such as copyright and other intellectual or industrial property rights, to any of the *results* and in all technological solutions and information created or produced by the contractor or by its subcontractor in *in performance of the contract*. The contracting authority may exploit and use the acquired rights as stipulated in this contract. The Union acquires all the rights as from the moment the contractor has created the *results*.

The payment of the price includes any fees payable to the contractor about the acquisition of ownership of rights by the Union including for all modes of exploitation and of use of the *results*.

II.13.2 Licensing rights on pre-existing materials

Unless provided otherwise in the special conditions, the Union does not acquire ownership of *pre-existing rights* under this contract.

The contractor licenses the *pre-existing rights* on a royalty-free, non-exclusive and irrevocable basis to the Union, which may use the *pre-existing materials* for all the modes of exploitation set out in this contract. Unless otherwise agreed, the licence is non-transferable and cannot be sub-licensed, except as provided hereafter:

(a) the *pre-existing rights* can be sub-licensed by the contracting authority to persons and entities working for it or cooperating with it, including contractors and subcontractors, whether legal or natural persons, but only for the purpose of their mission for the Union;

(b) if the *result* is a "document" such as a report or a study, and it is meant to be published, the existence of *pre-existing materials* in the *result* may not prevent the publication of the document, its translation or its "reuse", it being understood however that the "reuse" may only be made of the *result* as a whole and not of the *pre-existing materials* taken separately from the *result*; for the sake of this provision, "reuse" and "document" have the meaning given by the Commission Decision of 12 December 2011 on the reuse of Commission documents (2011/833/EU).

All *pre-existing rights* are licensed to the Union from the moment the *results* are delivered and approved by the contracting authority.

The licensing of *pre-existing rights* to the Union under this contract covers all territories worldwide and is valid for the duration of intellectual property rights protection.

The payment of the price as set out in this contract is deemed to also include any fees payable to the contractor in relation to the licensing of *pre-existing rights* by the Union, including for all forms of exploitation and of use of the *results*.

Where *implementation of the contract* requires that the contractor uses *pre-existing materials* belonging to the contracting authority, the contracting authority may request that the contractor signs an adequate licence agreement. Such use by the contractor will not entail any transfer of rights to the contractor and is limited to the needs of this contract.

II.13.3 Exclusive rights

The Union acquires the following exclusive rights:

(a) reproduction: the right to authorise or prohibit direct or indirect, temporary or permanent reproduction of the *results* by any means (mechanical, digital or other) and in any form, in whole or in part;

(b) communication to the public: the exclusive right to authorise or prohibit any display, performance or communication to the public, by wire or wireless means, including the making available to the public of the *results* in such a way that members of the public may access them from a place and at a time individually chosen by them; this also includes the communication on Internet and broadcasting by cable or by satellite;

(c) distribution: the exclusive right to authorise or prohibit any form of distribution of *results* or copies of the *results* to the public, by sale or otherwise;

(d) rental: the exclusive right to authorise or prohibit rental or lending of the *results* or of copies of the *results*;

(e) adaptation: the exclusive right to authorise or prohibit any modification of the *results*;

(f) translation: the exclusive right to authorise or prohibit any translation, adaptation, arrangement, creation of derivative works based on the *results*, and any other alteration of the *results*, subject to the respect of moral rights of authors, where applicable;

(g) where the *results* are or include a database: the exclusive right to authorise or prohibit the extraction of all or a substantial part of the contents of the database to another medium by any means or in any form; and the exclusive right to authorise or prohibit the re-utilization of all or a substantial part of the contents of the database by the distribution of copies, by renting, by on-line or other forms of transmission;

(h) where the *results* are or include a patentable subject-matter: the right to register them as a patent and to further exploit such patent to the fullest extent;

(i) where the *results* are or include logos or subject-matter which could be registered as a trademark: the right to register such logo or subject-matter as a trademark and to further exploit and use it;

(j) where the *results* are or include know-how: the right to use such know-how as is necessary to make use of the *results* to the full extent provided for by this contract, and the right to make it available to contractors or subcontractors acting on behalf of the contracting authority, subject to their signing of adequate confidentiality undertakings where necessary;

(k) where the *results* are documents:

  (i) the right to authorise the reuse of the documents in conformity with the Commission Decision of 12 December 2011 on the reuse of Commission documents (2011/833/EU), to the extent it is applicable and the documents fall within its scope and are not excluded by any of its provisions; for the sake of this provision, ‘reuse’ and ‘document’ have the meaning given to them by this Decision;

  (ii) the right to store and archive the *results* in line with the document management rules applicable to the contracting authority, including digitisation or converting the format for preservation or new use purposes;

(l) where the *results* are or incorporate software, including source code, object code and, where relevant, documentation, preparatory materials and manuals, in addition to the other rights mentioned in this Article:

  (i) end-user rights, for all uses by the Union or by subcontractors which result from this contract and from the intention of the parties;

  (ii) the rights to receive both the source code and the object code;

(m) the right to license to third parties any of the exclusive rights or of the modes of exploitation set out in this contract; however, for *pre-existing materials* which are only licensed to the Union, the right to sub-license does not apply, except in the two cases foreseen by Article II.13.2.;

(n) to the extent that the contractor may invoke moral rights, the right for the contracting authority, except where otherwise provided in this contract, to publish the *results* with or without mentioning the *creator*(s)' name(s), and the right to decide when and whether the *results* may be disclosed and published

The contractor warrants that the exclusive rights and the modes of exploitation may be exercised by the Union on all parts of the *results*, be it via a transfer of ownership of the rights, on those parts, which were specifically created by the contractor, or via a licence of the pre-existing rights, on those parts consisting of *pre-existing materials*.

Where *pre-existing materials* are inserted in the *results*, the contracting authority may accept reasonable restrictions impacting on the above list, provided that the said materials are easily identifiable and separable from the rest, that they do not correspond to substantial elements of the *results*, and that, should the need arise, satisfactory replacement solutions exist, at no additional costs to the contracting authority. In such case, the contractor will have to clearly inform the contracting authority before making such choice and the contracting authority has the right to refuse it.

II.13.4 Identification of pre-existing rights

When delivering the *results*, the contractor must warrant that, for any use that the contracting authority may envisage within the limits set in this contract, the *results* and the *pre-existing material* incorporated in the *results* are free of claims from *creators* or from any third parties and all the necessary *pre-existing rights* have been obtained or licensed.

To that effect, the contractor must establish a list of all *pre-existing rights* to the *results* of this contract or parts thereof, including identification of the rights' owners. If there are no *pre-existing rights* to the *results*, the contractor must provide a declaration to that effect. The contractor must provide this list or declaration to the contracting authority together with the invoice for payment of the balance at the latest.

II.13.5 Evidence of granting of pre-existing rights

Upon request by the contracting authority, the contractor must, in addition to the list mentioned under Article II.13.4., provide evidence that it has the ownership or the right to use all the listed *pre-existing rights*, except for the rights owned or licensed by the Union. The contracting authority may request this evidence even after the end of this contract.

This provision also applies to image rights and sound recordings.

This evidence may refer, for example, to rights to: parts of other documents, images, graphs, sounds, music, tables, data, software, technical inventions, know-how, IT development tools, routines, subroutines or other programs ('background technology'), concepts, designs, installations or pieces of art, data, source or background materials or any other parts of external origin.

This evidence must include, as appropriate:

(a) the name and version number of a software product;

(b) the full identification of the work and its author, developer, *creator*, translator, data entry person, graphic designer, publisher, editor, photographer, producer;

(c) a copy of the licence to use the product or of the agreement granting the relevant rights to the contractor or a reference to this licence;

(d) a copy of the agreement or extract from the employment contract granting the relevant rights to the contractor where parts of the *results* were created by its *personnel*;

(e) the text of the disclaimer notice if any.

Provision of evidence does not release the contractor from its responsibilities if it is found that it does not hold the necessary rights, regardless of when and by whom this fact is revealed.

The contractor also warrants that it possesses the relevant rights or powers to execute the transfer and that it has paid or has verified payment of all due fees including fees due to collecting societies, related to the final *results*.

II.13.6 Quotation of works in the result

In the *result*, the contractor must clearly point out all quotations of existing works. The complete reference should include as appropriate, the following: name of the author, title of the work, date and place of publication, date of creation, address of publication on the internet, number, volume and other information that allows the origin to be easily identified.

II.13.7 Moral rights of creators

By delivering the *results*, the contractor warrants that the *creators* will not object to the following on the basis of their moral rights under copyright:

(a) that their names be mentioned or not mentioned when the *results* are presented to the public;

(b) that the *results* be divulged or not after they have been delivered in their final version to the contracting authority;

(c) that the *results* be adapted provided that this is done in a manner, which is not prejudicial to the *creator*'s honour or reputation.

If moral rights on parts of the *results* protected by copyright may exist, the contractor must obtain the consent of *creators* regarding the granting or waiver of the relevant moral rights in accordance with the applicable legal provisions and be ready to provide documentary evidence upon request.

II.13.8 Image rights and sound recordings

If natural persons appear in a *result* or their voice or any other private element is recorded in a recognisable manner, the contractor must obtain a statement by these persons (or, in the case of minors, by the persons exercising parental authority) giving their permission for the described use of their image, voice or private element and, on request, submit a copy of the permission to the contracting authority. The contractor must take the necessary measures to obtain such consent in accordance with the applicable legal provisions.

II.13.9 Copyright notice for pre-existing rights

When the contractor retains *pre-existing rights* on parts of the *results*, reference must be inserted to that effect when the *result* is used as set out in Article I.10.1, with the following disclaimer: '© — year — European Union. All rights reserved. Certain parts are licensed under conditions to the EU', or with any other equivalent disclaimer as the contracting authority may consider best appropriate, or as the parties may agree on a case-by-case basis. This does not apply where inserting such reference would be impossible, notably for practical reasons.

II.13.10 Visibility of Union funding and disclaimer

When making use of the *results*, the contractor must declare that they have been produced under a contract with the Union and that the opinions expressed are those of the contractor only and do not represent the contracting authority's official position. The contracting authority may waive this obligation in writing or provide the text of the disclaimer.

II.14. FORCE MAJEURE

II.14.1 If a party is affected by *force majeure*, it must immediately *notify* the other party, stating the nature of the circumstances, their likely duration and foreseeable effects.

II.14.2 A party is not liable for any delay or failure to perform its obligations under the contract if that delay or failure is a *result* of *force majeure*. If the contractor is unable to fulfil its contractual obligations owing to *force majeure*, it has the right to remuneration only for the services actually provided.

II.14.3 The parties must take all necessary measures to limit any damage due to *force majeure.*

II.15. LIQUIDATED DAMAGES

II.15.1 Delay in delivery

If the contractor fails to perform its contractual obligations within the applicable time limits set in this contract, the contracting authority may claim liquidated damages for each day of delay using the following formula:

0.3 x (*V/d)*

Where

V is the price of the relevant purchase or deliverable or *result* or, failing that, the price specified in Article I.4.1;

d is the duration specified for delivery of the relevant purchase or deliverable or *result* or, failing that, the duration of *performance of the contract* specified in Article I.3.3 expressed in days.

Liquidated damages may be imposed together with a reduction in price under the conditions laid down in Article II.16.

II.15.2 Procedure

The contracting authority must *formally notify* the contractor of its intention to apply liquidated damages and the corresponding calculated amount.

The contractor has 30 days following the date of receipt to submit observations. Failing that, the decision becomes enforceable the day after the time limit for submitting observations has elapsed.

If the contractor submits observations, the contracting authority, taking into account the relevant observations, must *notify* the contractor:

(a) of the withdrawal of its intention to apply liquidated damages; or

(b) of its final decision to apply liquidated damages and the corresponding amount.

II.15.3 Nature of liquidated damages

The parties expressly acknowledge and agree that any amount payable under this Article is not a penalty and represents a reasonable estimate of fair compensation for the damage incurred due to failure to provide the services within the applicable time limits set out in this contract.

II.15.4 Claims and liability

Any claim for liquidated damages does not affect the contractor's actual or potential liability or the contracting authority's rights under Article II.18.

II.16. REDUCTION IN PRICE

II.16.1 Quality standards

If the contractor fails to provide the service in accordance with the contract ('unperformed obligations') or if it fails to provide the service in accordance with the expected quality levels specified in the tender specifications ('low quality delivery'), the contracting authority may reduce or recover payments proportionally to the seriousness of the unperformed obligations or low quality delivery. This includes in particular cases where the contracting authority cannot approve a *result*, report or deliverable as defined in Article I.5 after the contractor has submitted the required additional information, correction or new version.

A reduction in price may be imposed together with liquidated damages under the conditions of Article II.15.

II.16.2 Procedure

The contracting authority must *formally notify* the contractor of its intention to reduce payment and the corresponding calculated amount.

The contractor has 30 days following the date of receipt to submit observations. Failing that, the decision becomes enforceable the day after the time limit for submitting observations has elapsed.

If the contractor submits observations, the contracting authority, taking into account the relevant observations, must *notify* the contractor:

(a) of the withdrawal of its intention to reduce payment; or

(b) of its final decision to reduce payment and the corresponding amount.

II.16.3 Claims and liability

Any reduction in price does not affect the contractor's actual or potential liability or the contracting authority's rights under Article II.18.

II.17. SUSPENSION OF THE PERFORMANCE OF THE CONTRACT

II.17.1 Suspension by the contractor

If the contractor is affected by *force majeure*, it may suspend the *performance of the contract*. The contractor must immediately *notify* the contracting authority of the suspension. The *notification* must include a description of the *force majeure* and state when the contractor expects to resume the *performance of the contract*.

The contractor must *notify* the contracting authority as soon as it is able to resume *performance of the contract*, unless the contracting authority has already terminated the contract.

II.17.2 Suspension by the contracting authority

The contracting authority may suspend the *performance of the contract* or any part of it:

(a) if the procedure for awarding the contract or the *performance of the contract* proves to have been subject to *irregularities, fraud* or *breach of obligations*;

(b) in order to verify whether the presumed *irregularities, fraud* or *breach of obligations* have actually occurred.

The contracting authority must *formally notify* the contractor of the suspension and the reasons for it. Suspension takes effect on the date of *formal notification*, or at a later date if the *formal notification* so provides.

The contracting authority must *notify* the contractor as soon as the verification is completed whether:

(a) it is lifting the suspension; or

(b) it intends to terminate the contract under Article II.18.1(f) or (j).

The contractor is not entitled to compensation for suspension of any part of the contract.

The contracting authority may in addition suspend the time allowed for payments in accordance with Article II.21.7

II.18. TERMINATION OF THE CONTRACT

II.18.1 Grounds for termination by the contracting authority

The contracting authority may terminate the contract in the following circumstances:

(a) if provision of the services under the contract has not actually started within 15 days of the scheduled date and the contracting authority considers the new date proposed, if any, unacceptable, taking into account Article II.11.2;

(b) if the contractor is unable, through its own fault, to obtain any permit or licence required for *performance of the contract*;

(c) if the contractor does not perform the contract in accordance with the tender specifications or is in breach of another substantial contractual obligation.

(d) if the contractor or any person that assumes unlimited liability for the debts of the contractor is in one of the situations provided for in points (a) and (b) of Article 136(1) of the Financial Regulation[6];

(e) if the contractor or any *related person* is in one of the situations provided for in points (c) to (h) of Article 136(1) or to Article 136(2) of the Financial Regulation.

(f) if the procedure for awarding the contract or the *performance of the contract* prove to have been subject to *irregularities, fraud* or *breach of obligations*;

[6] Financial Regulation - REGULATION (EU, Euratom) 2018/1046 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=OJ:L:2018:193:TOC.

(g) if the contractor does not comply with applicable obligations under environmental, social and labour law established by Union law, national law, collective agreements or by the international environmental, social and labour law provisions listed in Annex X to Directive 2014/24/EU;

(h) if the contractor is in a situation that could constitute a *conflict of interest* or a *professional conflicting interest* as referred to in Article II.7;

(i) if a change to the contractor's legal, financial, technical, organisational or ownership situation is likely to substantially affect the *performance of the contract* or substantially modify the conditions under which the contract was initially awarded, or a change regarding the exclusion situations listed in Art 136 of Regulation (EU) 2018/1046 that calls into question the decision to award the contract;

(j) in the event of *force majeure*, where either resuming implementation is impossible or the necessary ensuing amendments to the contract would mean that the tender specifications are no longer fulfilled or result in unequal treatment of tenderers or contractors;

(k) if the contractor is in breach of the data protection obligations resulting from Article II.9.2;

(l) if the contractor does not comply with the applicable data protection obligations resulting from Regulation (EU) 2016/679.

II.18.2 Grounds for termination by the contractor

The contractor may terminate the contract if the contracting authority fails to comply with its obligations, in particular the obligation to provide the information needed for the contractor to perform the contract as provided for in the tender specifications.

II.18.3 Procedure for termination

A party must *formally notify* the other party of its intention to terminate the contract and the grounds for termination.

The other party has 30 days following the date of receipt to submit observations, including the measures it has taken or will take to continue fulfilling its contractual obligations. Failing that, the decision to terminate becomes enforceable the day after the time limit for submitting observations has elapsed.

If the other party submits observations, the party intending to terminate must *formally notify* it either of the withdrawal of its intention to terminate or of its final decision to terminate.

In the cases referred to in points (a) to (d), (g) to (i), (k) and (l) of Article II.18.1 and in Article II.18.2, the date on which the termination takes effect must be specified in the *formal notification*.

In the cases referred to in points (e), (f) and (j) of Article II.18.1, the termination takes effect on the day following the date on which the contractor receives *notification* of termination.

In addition, at the request of the contracting authority and regardless of the grounds for termination, the contractor must provide all necessary assistance, including information, documents and files, to allow the contracting authority to complete, continue or transfer the services to a new contractor or internally, without interruption or adverse effect on the quality or continuity of the services. The parties may agree to draw up a transition plan detailing the contractor's assistance unless such plan is already detailed in other contractual documents or in the tender specifications. The contractor must provide such assistance at no additional cost, except if it can demonstrate that it requires substantial additional resources or means, in which

case it must provide an estimate of the costs involved and the parties will negotiate an arrangement in good faith.

II.18.4 Effects of termination

The contracting authority may claim compensation for such damage. The contractor is liable for damage incurred by the contracting authority as a result of the termination of the contract, including the additional cost of appointing and contracting another contractor to provide or complete the services, except if the damage is a result of a termination in accordance with Article II.18.1(j) or Article II.18.2. The contracting authority may claim compensation for such damage.

The contractor is not entitled to compensation for any loss resulting from the termination of the contract, including loss of anticipated profits, unless the loss was caused by the situation specified in Article II.18.2.

The contractor must take all appropriate measures to minimise costs, prevent damage and cancel or reduce its commitments.

Within 60 days of the date of termination, the contractor must submit any report, deliverable or *result* and any invoice required for services that were provided before the date of termination.

In the case of joint tenders, the contracting authority may terminate the contract with each member of the group separately on the basis of points (d), (e), (g), (k) and (l) of Article II.18.1, under the conditions set out in Article II.11.2.

II.19. INVOICES, VALUE ADDED TAX AND E-INVOICING

II.19.1 Invoices and value added tax

Invoices must contain the contractor's (or leader's in the case of a joint tender) identification data, the amount, the currency and the date, as well as the contract reference.

Invoices must indicate the place of taxation of the contractor (or leader in the case of a joint tender) for value added tax (VAT) purposes and must specify separately amounts not including VAT and amounts including VAT.

The contracting authority is exempt from all taxes and duties, including VAT, in accordance with Articles 3 and 4 of the Protocol 7 of the Treaty on the Functioning of the European Union on the privileges and immunities of the European Union.

The contractor (or leader in the case of a joint tender) must complete the necessary formalities with the relevant authorities to ensure that the supplies and services required for *performance of the contract* are exempt from taxes and duties, including VAT.

II.19.2 E-invoicing

If provided for in the special conditions, the contractor (or leader in the case of a joint tender) submits invoices in electronic format if the conditions regarding electronic signature specified by Directive 2006/112/EC on VAT are fulfilled, i.e. using a qualified electronic signature or through electronic data interchange.

Reception of invoices by standard format (pdf) or email is not accepted.

II.20. PRICE REVISION

If a price revision index is provided in Article I.4.2, this Article applies to it.

Prices are fixed and not subject to revision during the first year of the contract.

At the beginning of the second and every following year of the contract, each price may be revised upwards or downwards at the request of one of the parties.

A party may request a price revision in writing no later than three months before the anniversary date of entry into force of the contract. The other party must acknowledge the request within 14 days of receipt.

At the anniversary date, the contracting authority must communicate the final index for the month in which the request was received, or failing that, the last provisional index available for that month. The contractor establishes the new price on this basis and communicates it as soon as possible to the contracting authority for verification.

The price revision is calculated using the following formula:

$$Pr = Po \times \left(\frac{Ir}{Io} \right)$$

Where: Pr = revised price;

Po = price in the tender;

Io = index for the month in which the contract enters into force;

Ir = index for the month in which the request to revise prices is received.

II.21. PAYMENTS AND GUARANTEES

II.21.1 Date of payment

The date of payment is deemed to be the date on which the contracting authority's account is debited.

II.21.2 Currency

Payments are made in euros, unless another currency is provided for in Article I.7.

II.21.3 Conversion

The contracting authority makes any conversion between the euro and another currency at the daily euro exchange rate published in the Official Journal of the European Union, or failing that, at the monthly accounting exchange rate, as established by the European Commission and published on the website indicated below, applicable on the day when it issues the payment order.

The contractor makes any conversion between the euro and another currency at the monthly accounting exchange rate, established by the Commission and published on the website indicated below, applicable on the date of the invoice.

http://ec.europa.eu/budget/contracts_grants/info_contracts/inforeuro/inforeuro_en.cfm

II.21.4 Costs of transfer

The costs of the transfer are borne as follows:

(a) the contracting authority bears the costs of dispatch charged by its bank;

(b) the contractor bears the costs of receipt charged by its bank;

(c) the party causing repetition of the transfer bears the costs for repeated transfer.

II.21.5 Pre-financing, performance and money retention guarantees

If, as provided for in Article I.6, a financial guarantee is required for the payment of pre-financing, as performance guarantee or as retention money guarantee, it must fulfil the following conditions:

(a) the financial guarantee is provided by a bank or a financial institution approved by the contracting authority or, at the request of the contractor and with the agreement of the contracting authority, by a third party; and

(b) the guarantee shall have the effect of making the bank or financial institution or the third party provide irrevocable collateral security, or stand as first-call guarantor of the contractor's obligations without requiring that the contracting authority has recourse against the principal debtor (the contractor).

The contractor bears the cost of providing such guarantee.

Pre-financing guarantees must remain in force until the pre-financing is cleared against interim payments or payment of the balance. Where the payment of the balance takes the form of a debit note, the pre-financing guarantee must remain in force for three months after the debit note is sent to the contractor. The contracting authority must release the guarantee within the following month.

Performance guarantees cover compliance with substantial contractual obligations until the contracting authority has given its final approval for the service. The performance guarantee must not exceed 10 % of the total price of the contract. The contracting authority must release the guarantee fully after final approval of the service, as provided for in the contract.

Retention money guarantees cover full delivery of the service in accordance with the contract including during the contract liability period and until its final approval by the contracting authority. The retention money guarantee must not exceed 10 % of the total price of the contract. The contracting authority must release the guarantee after the expiry of the contract liability period as provided for in the contract.

The contracting authority must not request a retention money guarantee where it has requested a performance guarantee.

II.21.6 Interim payments and payment of the balance

The contractor (or leader in the case of a joint tender) must send an invoice for interim payment, as provided for in Article I.5 or in the tender specifications.

The contractor (or leader in the case of a joint tender) must send an invoice for payment of the balance within 60 days of the end of the period of provision of the services, as provided for in Article I.5 or in the tender specifications.

Payment of the invoice and approval of documents does not imply recognition of the regularity, authenticity, completeness and correctness of the declarations and information they contain.

Payment of the balance may take the form of recovery.

II.21.7 Suspension of the time allowed for payment

The contracting authority may suspend the payment periods specified in Article I.5 at any time by *notifying* the contractor (or leader in the case of a joint tender) that its invoice cannot be processed. The reasons the contracting authority may cite for not being able to process an invoice are:

(a) because it does not comply with the contract;

(b) because the contractor has not produced the appropriate documents or deliverables; or

(c) because the contracting authority has observations on the documents or deliverables submitted with the invoice.

The contracting authority must *notify* the contractor (or leader in the case of joint tender) as soon as possible of any such suspension, giving the reasons for it. In cases b) and c) referred above, the contracting authority shall notify the contractor (or leader in case of a joint tender) the time limits to submit additional information or corrections or a new version of the documents or deliverables if the contracting authority requires it.

Suspension takes effect on the date the contracting authority sends the *notification*. The remaining payment period resumes from the date on which the requested information or revised documents are received or the necessary further verification, including on-the-spot checks, is carried out. Where the suspension period exceeds two months, the contractor (or leader in the case of a joint tender) may request the contracting authority to justify the continued suspension.

Where the payment periods have been suspended following rejection of a document referred to in the first paragraph of this Article and the new document produced is also rejected, the contracting authority reserves the right to terminate the contract in accordance with Article II.18.1(c).

II.21.8 Interest on late payment

On expiry of the payment periods specified in Article I.5, the contractor (or leader in the case of a joint tender) is entitled to interest on late payment at the rate applied by the European Central Bank for its main refinancing operations in euros (the reference rate) plus eight points. The reference rate is the rate in force, as published in the C series of the *Official Journal of the European Union,* on the first day of the month in which the payment period ends.

Suspension of the payment period as provided for in Article II.21.7 is not considered as giving rise to late payment.

Interest on late payment covers the period running from the day following the due date for payment up to and including the date of payment as defined in Article II.21.1.

However, when the calculated interest is EUR 200 or less, it must be paid to the contractor (or leader in the case of a joint tender) only if it requests it within two months of receiving late payment.

II.22. REIMBURSEMENTS

II.22.1 If provided for in the special conditions or in the tender specifications, the contracting authority must reimburse expenses directly connected with the provision of the services either when the contractor provides it with supporting documents or on the basis of flat rates.

II.22.2 The contracting authority reimburses travel and subsistence expenses on the basis of the shortest itinerary and the minimum number of nights necessary for overnight stay at the destination.

II.22.3 The contracting authority reimburses travel expenses as follows:

(a) travel by air: up to the maximum cost of an economy class ticket at the time of the reservation;

(b) travel by boat or rail: up to the maximum cost of a first class ticket;

(c) travel by car: at the rate of one first class rail ticket for the same journey and on the same day.

In addition, the contracting authority reimburses travel outside Union territory if it has given its prior written approval for the expenses.

II.22.4 The contracting authority reimburses subsistence expenses on the basis of a daily subsistence allowance as follows:

(a) for journeys of less than 200 km for a return trip, no subsistence allowance is payable;

(b) the daily subsistence allowance is payable only on receipt of supporting documents proving that the person concerned was present at the destination;

(c) the daily subsistence allowance takes the form of a flat-rate payment to cover all subsistence expenses, including meals, local transport including transport to and from the airport or station, insurance and sundries;

(d) the daily subsistence allowance is reimbursed at the flat rates specified in Article I.4.3;

(e) accommodation is reimbursed on receipt of supporting documents proving the necessary overnight stay at the destination, up to the flat-rate ceilings specified in Article I.4.3.

II.22.5 The contracting authority reimburses the cost of shipment of equipment or unaccompanied luggage if it has given prior written approval for the expense.

II.23. RECOVERY

II.23.1 If an amount is to be recovered under the terms of the contract, the contractor must repay the contracting authority the amount in question.

II.23.2 Recovery procedure

Before recovery, the contracting authority must *formally notify* the contractor of its intention to recover the amount it claims, specifying the amount due and the reasons for recovery and inviting the contractor to make any observations within 30 days of receipt.

If no observations have been submitted or if, despite the observations submitted, the contracting authority decides to pursue the recovery procedure, it must confirm recovery by *formally notifying* a debit note to the contractor, specifying the date of payment. The contractor must pay in accordance with the provisions specified in the debit note.

If the contractor does not pay by the due date, the contracting authority may, after informing the contractor in writing, recover the amounts due:

(a) by offsetting them against any amounts owed to the contractor by the Union or by the European Atomic Energy Community or by an executive agency when it implements the Union budget;

(b) by calling in a financial guarantee if the contractor has submitted one to the contracting authority;

(c) by taking legal action.

II.23.3 Interest on late payment

If the contractor does not honour the obligation to pay the amount due by the date set by the contracting authority in the debit note, the amount due bears interest at the rate indicated in Article II.21.8. Interest on late payments will cover the period starting on the day after the due date for payment and ending on the date when the contracting authority receives the full amount owed.

Any partial payment is first entered against charges and interest on late payment and then against the principal amount.

II.23.4 Recovery rules in the case of joint tender

If the contract is signed by a group (joint tender), the group is jointly and severally liable under the conditions set out in Article II.6 (liability). The contracting authority shall send the debit note first to the leader of the group.

If the leader does not pay by the due date the whole amount, and if the amount due cannot be offset or can only be offset partially in accordance with Article II.23.2 (a), then the contracting authority may claim the amount still due to any other member or members of the group by respectively *notifying* them with a debit note in conformity with the provisions laid down in Article II.23.2.

II.24. CHECKS AND AUDITS

II.24.1 The contracting authority and the European Anti-Fraud Office may check or require an audit on the *performance of the contract*. This may be carried out either by OLAF's own staff or by any outside body authorised to do so on its behalf.

Such checks and audits may be initiated at any moment during the *performance of the contract* and up to five years starting from the payment of the balance.

The audit procedure is initiated on the date of receipt of the relevant letter sent by the contracting authority. Audits are carried out on a confidential basis.

II.24.2 The contractor must keep all original documents stored on any appropriate medium, including digitised originals if authorised under national law, for a period of five years starting from the payment of the balance.

II.24.3 The contractor must grant the contracting authority's staff and outside *personnel* authorised by the contracting authority the appropriate right of access to sites and premises where the contract is performed and to all the information, including information in electronic format, needed to conduct such checks and audits. The contractor must ensure that the information is readily available at the moment of the check or audit and, if so requested, that information is handed over in an appropriate format.

II.24.4 On the basis of the findings made during the audit, a provisional report is drawn up. The contracting authority or its authorised representative must send it to the contractor, who has 30 days following the date of receipt to submit observations. The contractor must receive the final report within 60 days following the expiry of that deadline to submit observations.

On the basis of the final audit findings, the contracting authority may recover all or part of the payments made in accordance with Article II.23 and may take any other measure, which it considers necessary.

II.24.5 In accordance with Council Regulation (Euratom, EC) No 2185/96 of 11 November 1996 concerning on-the-spot checks and inspection carried out by the Commission in order to protect the European Communities' financial interests against *fraud* and other *irregularities* and Regulation (EU, Euratom) No 883/2013 of the European Parliament and the Council of 11 September 2013 concerning investigation conducted by the European Anti-Fraud Office , the European Anti-Fraud Office may carry out investigations, including on-the-spot checks and inspections, to establish whether there has been *fraud*, corruption or any other illegal activity under the contract affecting the financial interests of the Union. Findings arising from an investigation may lead to criminal prosecution under national law.

The investigations may be carried out at any moment during the provision of the services and up to five years starting from the payment of the balance.

II.24.6 The Court of Auditors and the European Public Prosecutor's Office established by Council Regulation (EU) 2017/1939[7] ('the EPPO') have the same rights as the contracting authority, particularly right of access, for the purpose of checks, audits and investigations.

ANNEX IV – COMMITMENT ON STATISTICAL CONFIDENTIALITY

Commitment on statistical confidentiality for staff of companies, which have concluded a contract for the provision of services with Eurostat

It is explicitly stated in Article 22(1) of Regulation (EC) No 223/2009 on European Statistics that "[ ]confidential data shall be accessible … only to officials of the Commission (Eurostat) within their specific domain of work". Eurostat officials are bound to respect statistical confidentiality, as laid down in this Regulation, without any further formalities. They are explicitly informed of their obligations. Other staff of Eurostat and other natural persons working for Eurostat are required to sign a commitment on statistical confidentiality in order to have access to confidential data.

This commitment should also be signed by the staff of companies, which have concluded a contract for the provision of services with the Commission, the objective being to highlight the importance of statistical confidentiality and the consequences of violations. This requirement forms part of the measures to protect such data, which must be taken by the Commission in accordance with the above-mentioned Regulation.

So, in the presence of Mr/Ms full name (for the company), Mr/Ms full name, employed/contracted by the company company name, with access to confidential statistical data at Eurostat since DD/MM/YYYY in the course of providing services covered by a contract concluded between that company and the Commission,

undertakes to respect statistical confidentiality.

He/she has been informed of Regulation (EC) No 223/2009 of the European Parliament and of the Council of 11 March 2009 on European statistics (OJ L 87, 31.3.2009, p.164). In particular, he/she has been informed that it is forbidden to use confidential statistical data for purposes other than the tasks expressly set out in the contract for the provision of services concluded between the company company name and the Commission.

He/she is forbidden to process, disseminate or otherwise make available or use these data in any way whatsoever. These obligations remain in force after the termination of his/her employment.

He/she has further been informed that the protection of confidential data within Eurostat has the highest priority which means that any violation of statistical confidentiality will be subject to proceedings by the judicial authorities concerned, which could, where appropriate, also include criminal penalties under the applicable national law.

He/she hereby declares that he/she is fully informed of the implications of statistical confidentiality. He/she acknowledges having received a copy of this commitment. He/she also acknowledges being aware that this commitment shall be presented to the Head of the Legal Unit at Eurostat for visa, before access to confidential data will be given, and that he/she will at this moment be informed that an electronic version of the Manual on the protection of confidential data in Eurostat is available on the Eurostat IT security website https://myintracomm.ec.europa.eu/dg/ESTAT/Security/Pages/Handbook-on-protection-of-Confidential-Data.aspx/..

ANNEX V – POWER OF ATTORNEY

ANNEX VI - E-INVOICE INTERCHANGE AGREEMENT

Contract N° XXXXX

E-REQUEST, E-ORDERING, E-FULFILMENT AND E-INVOICING INTERCHANGE AGREEMENT

(Web Services & Supplier Portal)

I. INTRODUCTION

1.1 The present agreement represents an annex to Contract ('the contract'), allowing the use of the following post-award procurement and contracts modules:

- *e-Request* (quotation request for services or goods, supplier formal offers)
- *e-Ordering* (orders based on framework contracts and others)
- *e-Fulfilment* (dispatch and receiving advices)
- *e-Invoicing* (standard invoices, debit and credit notes)
- and any other module that are being developed or will be developed in the future such as e-Contracts, e-Signature, e-Catalogue

1.2. The present agreement shall be activated following a notification via e-mail from the *contracting authority* to the contractor (the contact persons indicated in the contract) of the start of use of one or several modules. This written notification, which will specify whether it concerns only services or goods or both, shall have full legal effect from the date specified therein.

1.3. Unless otherwise established, the present agreement is only applicable for the communications between the contractor and the participating **Directorates-General, Institutions, Agencies and Bodies** (EUIs) mentioned, for each module and type of purchase (service or goods) at the following e-PRIOR website: https://webgate.ec.europa.eu/fpfis/wikis/x/8pBsAQ. The list is regularly updated.

Other Directorates-General of the European Commission or other EUIs may join this agreement at any time by way of notification via e-mail from the *contracting authority* to the contractor. This written notification shall have full legal effect from the date specified therein.

1.4. All documentation related to the present agreement is available on the web at the following link: https://webgate.ec.europa.eu/fpfis/wikis/x/8pBsAQ

II. DEFINITIONS

Parties agree to apply the following definitions:

'Authorised persons': persons with access to the system (e-PRIOR), meeting the requirements laid down in Article 121 (8), (9) and (10) of the Commission Delegated Regulation (EU) No 1268/2012of 29 October 2012 on the Rules of Application of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council on the financial rules applicable to the general budget of the Union, and which must be identified by the system via established means (authenticated user in ECAS – European Commission Authentication System).

'Back office': the internal system(s) used by the parties to process electronic documents such as orders and invoices.

'Contracting authority': the contracting party ordering the goods or services from the *contractor* and exchanging the relevant electronic documents (listed below in the definition of e-PRIOR) involved in that process.

'Dispatch advice': electronic document that the *contractor* sends to the *contracting authority* when it dispatches the goods or delivers the services based on fixed price or quoted time and means. The document must include the *order* reference and, in case of dispatch of goods, the delivery information. Once it has been validated, the *contracting authority* issues a *receiving advice.*

'Electronic Data Interchange (EDI)': the electronic transfer, from computer to computer, of commercial and administrative data using an agreed standard to structure an EDI message.

'EDI message': an electronic document structured by using an agreed standard, prepared in a computer readable format and capable of being automatically and unambiguously processed.

'Electronic system': the set of electronic means used by the parties in order to send or receive electronic messages (*own system* and system not controlled by the parties).

e-PRIOR': the service-oriented communication platform that provides a series of web services and allows the exchange of standardised electronic messages and documents between the parties. This is done either through web services, with a machine-to-machine connection between the parties' *back office* systems (*EDI messages*), or through a web application (the s*upplier portal*). The Platform may be used to exchange electronic documents (e-documents) such as electronic *requests for services/supplies (request for quotation,* final offer, etc.) electronic specific contracts and order forms, electronic transmission of timesheets, deliverables and its acceptance (*service receipt, dispatch advices and receipt advices*) or electronic invoices between the parties. Technical specifications (i.e. the *interface control document*), details on access and user manuals are available at the following website: https://webgate.ec.europa.eu/fpfis/wikis/display/ePRIOR/Home

'e-Request' is the module in *e-PRIOR* which aims to automate the exchange of r*equest for quotation* and offers between the *contracting authorities* and their *suppliers*. By covering the steps of the request management process as defined in the relevant contracts, *e-Request* establishes the basis under which *orders* will be concluded in *e-Ordering* with those *suppliers* who are providing services or goods related to the procurement procedures supported by the system.

'e-Ordering' is the module in *e-PRIOR* enabling the electronic exchange and signature of specific contracts or order forms for services or supplies in the context of framework contracts or direct contracts. This may not be applicable to certain categories of specific contracts (such as on-call services, services provided during extended working hours, etc.) which are not currently covered by *e-Ordering* and all these cases paper based procedures apply for the signature of the specific contracts. The *contracting authority* may include at a later stage those specific contracts in the scope of *e-Ordering* by means of written notification (e-mail or registered letter) to the contractor. This written notification shall have full legal effect from the date mentioned in the notification.

'e-Fulfilment' is the module in *e-PRIOR* enabling the electronic acceptance of services or goods through the exchange of *dispatch advices* (delivery note), *service receipts* and *receiving advices* (evidence of goods receipt or *service receipt* approval).

'e-Invoicing' is the module in *e-PRIOR* enabling *supplier*s to view all credit notes and cost claims and related supporting documents, sent to and received from the *contracting authority*. For *suppliers* authorised to do so, the *e-Invoicing* module also allows the creation of invoices, credit and debit notes, and their sending to *contracting authorities*.

'Interface control document': the guideline document which lays down the technical specifications, message standards, security standards, checks of syntax and semantics, etc. to facilitate machine-to-machine connection. This document is updated on a regular basis and is available on the *e-PRIOR* website.

'Invoice': electronic document issued by the *contractor* listing goods supplied and services rendered and the amount due for payment by the *contracting authority*.

'Own system': the information processing system (computer or network) that is predominantly controlled by the parties. Telecommunication connections leased from a network operator, for instance, do not fall within this scope.

'Order': electronic document equivalent to the specific contract, order form, direct contract or purchase order, by which the contracting authority requests by electronic means the provision of services or goods under the conditions and at the prices previously quoted by the contractor. The order, which is composed of a contract body and data appendix, must be signed electronically by the contractor and returned to the *contracting authority* for signature.

'Receiving advice' or 'Receipt Advice': electronic document issued by the *contracting authority* attesting the conformity of the goods or services received according to the terms of the contract, facilitating record accuracy and invoicing procedures.

'Request for quotation': electronic document by which the *contracting authority* invites the contractor to specify the quote details & the prices for a potential order.

'Service receipt': data reflecting the provision of "intramuros" services that is recorded by the contractor in the premises and on information systems of the *contracting authority* in the context of time and means service contracts. It enables the transmission of timesheets or any other supporting documentation that should be sent to the *contracting authority* for validation. Once it has been validated, the *contracting authority* issues a *receiving advice*.

'Standards': a set of codes, lists and guidelines accepted by the parties for the electronic interchange of *EDI messages*.

'Supplier or contractor': a legal or natural person providing goods or services to the contracting authority and exchanging the relevant electronic documents (listed in the definition of e-PRIOR) with the *contracting authority*.

'Supplier portal': the *e-PRIOR* portal, which allows the contractor to receive or exchange electronic documents, such as quotations, *orders, dispatch and receiving advices* or *invoices*, through a graphical user interface. When necessary, these documents can be signed electronically by the *authorised persons*.

'Third-party service provider': company enabling the exchange of financial and business documents electronically on behalf of the supplier to and from *e-PRIOR* via a machine-to-machine communication.

'Web services': machine-to-machine system allowing the *contractor* to receive or exchange electronic business documents such as quotations, *orders, dispatch and receiving advices* or *invoices*, either through a direct interface or a *third-party service provider.*

III. SUBJECT

3.1. The contracting parties (‘the parties’) undertake to take the necessary measures to mutually use electronic means for communication in the areas indicated in section 1. The electronic documents will be exchanged using the *e-PRIOR* platform, using the *web services* or the *supplier portal* system. Access to the *e-PRIOR* platform may also go through an access point of an interoperable network such as the Open PEPPOL network.

3.2. The *contractor* will agree with the *contracting authority* on which of the above-mentioned means will be used. The *contractor* shall communicate his choice not later than 10 working days after the activation referred to in Section 1.2 of the present agreement.

IV. IMPLEMENTATION AND MAINTENANCE OF THE ELECTRONIC SYSTEMS

4.1. When using ***web services***, the parties undertake to take the necessary measures to implement and maintain electronic systems that enable the effective use of electronic means to exchange electronic documents. The *electronic systems* are specified in the *interface control document*. The *contractor* must take the necessary technical measures to set it up at its own cost. The parties undertake the necessary measures to implement and maintain safety measures and procedures in order to adequately prevent messaging incurring any delays, messages being corrupted as to content or form, or messages being lost. Similarly, the parties shall strive to prevent third parties from obtaining unauthorised access to messages. The safety measures and procedures are defined in the *interface control document*.

If the use of safety measures and procedures leads to the rejection or detection of one or more errors in an *EDI message*, the receiver shall inform the sender thereof as soon as possible, but at the latest within 2 (two) working days.

When a change in the *interface control document* requires adaptations, the *contractor* has up to six (6) months from receipt of the notification to implement this change. This period can be shortened upon mutual agreement of the parties. This period does not apply to urgent measures required by the security policy of the *contracting authority* aimed at ensuring integrity, confidentiality and non-repudiation of information and availability of *e-PRIOR*, which must be applied immediately.

4.2 When using the ***supplier portal*** the *contracting authority* takes the necessary measures to implement and maintain electronic systems that enable the effective use of the *supplier portal*.

4.3. If electronic communication is hindered by factors beyond the control of the parties, these undertake to notify each other immediately and to make the necessary measures to restore this communication. If it is impossible to restore the electronic communication within a reasonable period of time, the *contracting authority* may notify the *contractor* that alternative means of communication may be used, until the electronic communication is restored.

4.4. In any event, for reasons linked to business continuity, the *contracting authority* reserves the right to use alternative means of communication at any moment.

V. AUTHORISED PERSONS IN E-PRIOR

5.1. The *contractor*'s legal representative shall designate one or more *authorised person(s)* for each module, as defined in Article 2 of the present agreement. These persons are authorised to

access to the system and, depending on the assigned roles, may sign or transmit documents through it.

5.2. The *contracting authority* shall grant access to the system to the *authorised person(s)* designated by the *contractor*. For this purpose, the latter must provide the *contracting authority* with a list of the *authorised person*(s) indicating their assigned roles for each module. The list must be drawn up using the access rights forms available on the Documentation Webpage indicated in Article I.3 of the present agreement.

The *contracting authority* may delegate the right to grant access to the system to the *contractor*'s legal representative, who may subsequently sub-delegate it to *authorised persons*.

5.3. User roles enabling these *e-PRIOR authorised person(s)* to sign legally binding documents are granted only upon submission of supporting documents proving that the authorised person is empowered to act as a legal representative of the *contractor* from the date into force of the present agreement.

For the *e-Ordering* module, the contractor commits to appoint a single *authorised person* as a signatory.

5.4. The *contractor*'s legal representative commits to take all necessary steps to notify the *contracting authority* in due time of any event affecting the list of *authorised person*(s).

VI. VALIDITY AND DATE OF ISSUANCE OF ELECTRONIC DOCUMENTS

6.1. Any electronic document and related attachments exchanged via *e-PRIOR* (or any other authorised platform) qualify as *EDI message*.

6.2. The parties agree that any document exchanged through such a system:

(a) is considered equivalent to a paper document;

(b) is deemed to be the original of the document;

(c) is legally binding on the parties has full effect once an e-PRIOR authorised person has performed the "sign" action in e-PRIOR; and

(d) constitutes evidence of the information contained in it and is admissible as evidence in judicial proceedings.

This is provided that it does not contain any dynamic features capable of automatically modifying it.

6.3. An *order* is only regarded as a valid transaction once the following steps have been completed:

a) the *order* message has been successfully received by the *contractor* (contract body and data appendix sent by the *contracting authority* to the *contractor*);

b) a positive and related order confirmation message has been successfully sent from the *contractor* to the *contracting authority* (equivalent to the *contractor* 's signature)*;* and

c) a final message endorsing the order has been sent by the *contracting authority* to the *contractor* and successfully received by him (equivalent to the *contracting authority*'s signature).

6.4. A *dispatch advice, invoice* or debit/credit note shall be deemed to have been legally issued or sent:

a) In case of using *web services*, when its status is set to "received" as defined in the interface control document.

b) In case of using the *supplier portal*, when the contractor is able to successfully submit the e-document without any error messages. The XML document related to the e-document is considered as a proof of receipt by the *contracting authority.*

6.5. A *request for quotation* or a *receipt advice* is deemed to have been legally sent by the *contracting authority* when the message has been successfully received by the *contractor*.

VII. ADMISSIBILITY

To the extent permitted by the applicable law, the parties hereby agree that in the event of dispute, the electronic documents (including, in the case of using the *web services*, the records of the *EDI messages* maintained in accordance with the terms and conditions of this agreement) shall be admissible before the courts and shall constitute evidence of the facts contained therein unless evidence to the contrary is adduced.

VIII. STORAGE OF ELECTRONIC DOCUMENTS

8.1 When using ***web services*** all *EDI messages* exchanged by the parties shall be stored by each party, unaltered and securely, in accordance with the time limits and specifications prescribed by the applicable legislative requirements. The parties agree that *EDI messages* that have been stored may be reproduced on any type of data carrier whatsoever and may be made legible by means of said reproduction.

8.2 When using **the *supplier portal***, the contractor shall download the PDF or XML message for each e-document within one year of submission, and store them securely. After this period, copies of the e-documents are no longer available for automatic download from the *supplier portal*.

IX. ENTRY INTO FORCE

This agreement shall enter into force on the date of signature of the framework contract/direct contract by the last party and shall become applicable for each module from the date indicated in section 1.2 of this agreement.

X. AMENDMENTS

10.1. Any amendment to the agreement must be made in writing and agreed by both parties.

10.2. Amendments will be part of the present agreement from the time of their signature by the last party.

XI. TERMINATION OF THE AGREEMENT

11.1. This agreement expires on the last day of performance of the contract. For framework contracts, this corresponds to the last day of performance of the latest possible specific contract related to it. For direct contracts, this corresponds to the last day of performance of the relevant tasks or deliverables.

11.2. The *contracting authority* may terminate the present agreement subject to a notice period of at least one (1) month. Notice shall be given by means of a registered letter and shall mention the date on which the agreement is terminated. The notice shall specify the reasons for termination.

11.3. The *contractor* may request the *contracting authority* to terminate this agreement by written communication, in which it shall indicate the reasons leading to this request. The *contracting authority* will assess the situation and, if considered appropriate, it may terminate the present agreement.

11.4. Termination of the agreement shall exclusively concern transactions performed after the date of termination. Its termination shall not release the parties from the obligations that result from the present agreement.

XII. SEVERABILITY

The parties intend that if one or more provisions of the present agreement are held to be illegal, invalid or unenforceable to any extent, the other provisions shall remain in force.
