II.6.3 The contractor shall have right of recourse at any time to the European Data Protection Supervisor.

II.6.4 Where the FWC requires the processing of personal data by the contractor, the contractor may act only under the supervision of the data controller, in particular with regard to the purposes of the processing, the categories of data which may be processed, the recipients of the data and the means by which the data subject may exercise his rights.

II.6.5 The contractor shall grant personnel access to the data to the extent strictly necessary for the performance, management and monitoring of the FWC.

II.6.6 The contractor undertakes to adopt appropriate technical and organisational security measures having regard to the risks inherent in the processing and to the nature of the personal data concerned in order to:

- II.7.3** The contractor shall make sure that the subcontract does not affect rights and guarantees granted to EDA by virtue of this FWC, notably by Article II.18.

ARTICLE II. 8 – AMENDMENTS

- II.8.1** Any amendment to the FWC or order form or specific contract shall be made in writing before fulfilment of all contractual obligations. An order form or a specific contract may not be deemed to constitute an amendment to the FWC.
- II.8.2** The amendment may not have the purpose or the effect of making changes to the FWC or to order forms or specific contracts which might call into question the decision awarding the FWC, order form or specific contract or result in unequal treatment of tenderers or contractors.

ARTICLE II. 9 – ASSIGNMENT

- II.9.1** The contractor shall not assign the rights, including claims for payments, and obligations arising from the FWC, in whole or in part, without prior written authorisation from EDA.

II.9.2 In the absence of such authorisation, or in the event of failure to observe the terms thereof, the assignment of rights or obligations by the contractor shall not be enforceable against EDA and shall have no effect on it.

ARTICLE II. 10 – OWNERSHIP OF THE RESULTS - INTELLECTUAL AND INDUSTRIAL PROPERTY RIGHTS

II.10.1 Definitions

In this FWC the following definitions apply:

- (1) 'results' means any intended outcome of the performance of the FWC which is delivered and finally accepted by EDA.
- (2) 'creator' means any natural person who contributed to the production of the result and includes personnel of EDA or a third party.
- (3) 'pre-existing rights' means any industrial and intellectual property rights, including background technology, which exist prior to EDA or the contractor ordering them for the purpose of the FWC performance and include rights of ownership and use by the contractor, the creator, EDA and any other third parties.

II.10.2 Ownership of the results

The ownership of the results shall be fully and irrevocably acquired by EDA under the FWC including any rights in any of the results listed in the FWC and order forms or specific contracts, including copyright and other intellectual or industrial property rights, and all technological solutions and information contained therein, produced in performance of the FWC. EDA may exploit them as stipulated in this FWC or order forms or specific contracts. All the rights shall be acquired by EDA from the moment the results are delivered by the contractor and accepted by EDA. Such delivery and acceptance are deemed to constitute an effective assignment of rights from the contractor to EDA.

The payment of the price as set out in the order forms or specific contracts is deemed to include any fees payable to the contractor in relation to the acquisition of ownership of rights by EDA including all forms of use of the results.

The acquisition of ownership of rights by EDA under this FWC covers all territories worldwide.

Any intermediary sub-result, raw data, intermediary analysis made available by the contractor cannot be used by EDA without the written consent of the contractor, unless the FWC or specific contract or order form explicitly provides for it to be treated as a self-contained result.

II.10.3 Licensing of pre-existing rights

EDA shall not acquire ownership of the pre-existing rights.

The contractor shall license the pre-existing rights on a royalty-free, non-exclusive and irrevocable basis to EDA which may use the pre-existing right as foreseen in Article I.8.1 or in order forms or specific contracts. All the pre-existing rights shall be licensed to EDA from the moment the results were delivered and accepted by EDA.

The licensing of pre-existing rights to EDA under this FWC covers all territories worldwide and is valid for the whole duration of intellectual property rights protection.

II.10.4 Modes of exploitation

EDA shall acquire ownership of each of the results produced as an outcome of the FWC which may be used for any of the following purposes:

- (a) giving access upon individual requests without the right to reproduce or exploit, as provided for by Regulation 1049/2001 of the European Parliament and of the Council of 30 May 2001 regarding public access to European Parliament, Council and Commission documents;
- (b) storage of the original and copies made in accordance with this FWC or specific contract or order form;
- (c) archiving in line with the document management rules applicable to EDA.

II.10.5 Identification and evidence of granting of pre-existing rights and rights of third parties

When delivering the results, the contractor shall warrant that they are free of rights or claims from creators and third parties including in relation to pre-existing rights, for any use envisaged by EDA. This does not concern the moral rights of natural persons.

The contractor shall establish to that effect a list of all pre-existing rights and rights of creators and third parties on the results of this FWC or parts thereof. This list shall be provided no later than the date of delivery of the final results.

In the results the contractor shall clearly point out all quotations of existing textual works. The complete reference should include as appropriate: name of the author, title of the work, date and place of publication, date of creation, address of publication on internet, number, volume and other information which allows the origin to be easily identified.

Upon request by EDA, the contractor shall provide evidence of ownership or rights to use all the listed pre-existing rights and rights of third parties except for the rights owned by EDA.

This evidence may refer, inter alia, to rights to: parts of other documents, images, graphs, tables, data, software, technical inventions, know-how etc. (delivered in paper, electronic or other form), IT development tools, routines, subroutines and/or other programs ("background technology"), concepts, designs, installations or pieces of art, data, source or background materials or any other parts of external origin.

The evidence shall include, as appropriate:

- (a) the name and version number of a software product;
- (b) the full identification of the work and its author, developer, creator, translator, data entry person, graphic designer, publisher, editor, photographer, producer;
- (c) a copy of the licence to use the product or of the agreement granting the relevant rights to the contractor or a reference to this licence;
- (d) a copy of the agreement or extract from the employment contract granting the relevant rights to the contractor where parts of the results were created by its personnel;
- (e) the text of the disclaimer notice if any.

Provision of evidence does not release the contractor from its responsibilities in case it is found that it does not hold the necessary rights, regardless of when and by whom this fact was revealed.

The contractor also warrants that it possesses the relevant rights or powers to execute the transfer and that it has paid or has verified payment of all due fees including fees due to collecting societies, related to the final results.

II.10.6 Creators

By delivering the results the contractor warrants that the creators undertake not to oppose that their names be recalled when the results are presented to the public and confirms that the results can be divulged. Names of authors shall be recalled on request in the manner communicated by the contractor to EDA.

The contractor shall obtain the consent of creators regarding the granting of the relevant rights and be ready to provide documentary evidence upon request.

II.10.7 Persons appearing in photographs or films

If natural, recognisable persons appear in a result or their voice is recorded the contractor shall submit a statement of these persons (or of the persons exercising parental authority in case of minors) where they give their permission for the described use of their image or voice on request by EDA. This does not apply to persons whose permission is not required in line with the law of the country where photographs were taken, films shot or audio records made.

II.10.8 Copyright for pre-existing rights

When the contractor retains pre-existing rights on parts of the results, reference shall be inserted to that effect when the result is used as set out in Article I.8.1 with the following disclaimer: © - year – European Defence Agency. All rights reserved. Certain parts are licensed under conditions to EDA.

II.10.9 Visibility of EDA funding and disclaimer

When making use of the results, the contractor shall declare that they have been produced within a contract with EDA and that the opinions expressed are those of the contractor only and do not represent EDA's official position. EDA may waive this obligation in writing.

ARTICLE II. 11 – FORCE MAJEURE

II.11.1 'Force majeure' means any unforeseeable and exceptional situation or event beyond the parties' control which prevents either of them from fulfilling any of their obligations under the FWC, which was not attributable to error or negligence on their part or on the part of subcontractors and which proves to be inevitable in spite of exercising due diligence. Any default of a service, defect in equipment or material or delays in making them available, unless they stem directly from a relevant case of force majeure, as well as labour disputes, strikes or financial difficulties, cannot be invoked as force majeure.

II.11.2 A party faced with force majeure shall formally notify the other party without delay, stating the nature, likely duration and foreseeable effects.

II.11.3 The party faced with force majeure shall not be held in breach of its contractual obligations if it has been prevented from fulfilling them by force

majeure. Where the contractor is unable to fulfil its contractual obligations owing to force majeure, it shall have the right to remuneration only for the tasks actually executed.

II.11.4 The parties shall take all the necessary measures to limit any damage due to force majeure.

ARTICLE II. 12 – LIQUIDATED DAMAGES

EDA may impose liquidated damages should the contractor fail to complete its contractual obligations, also with regard to the required quality level, according to the tender specifications.

Should the contractor fail to perform its contractual obligations within the time limits set by the FWC or the relevant order form or specific contract, then, without prejudice to the contractor's actual or potential liability or to EDA's right to terminate the FWC or the relevant order form or specific contract, EDA may impose liquidated damages for each and every calendar day of delay according to the following formula:

$$0.3 \times (V/d)$$

V is the price of the relevant purchase;

d is the duration specified in the relevant order form or specific contract or, failing that, the period between the date specified in Article I.4.1 and the date of delivery or performance specified in the relevant order form or specific contract, expressed in calendar days

The contractor may submit arguments against this decision within 30 days of receipt of the formal notification. In the absence of a reaction on its part or of written withdrawal by EDA within 30 days of the receipt of such arguments, the decision imposing the liquidated damages shall become enforceable.

The parties expressly acknowledge and agree that any sums payable under this article are in the nature of liquidated damages and not penalties, and represent a reasonable estimate of fair compensation for the losses incurred due to failure to fulfil obligations which may be reasonably anticipated.

ARTICLE II. 13 – SUSPENSION OF THE PERFORMANCE OF THE FWC

II.13.1 Suspension by the contractor

The contractor may suspend the performance of the FWC or order form or specific contract or any part thereof if a case of force majeure makes such performance impossible or excessively difficult. The contractor shall inform EDA about the suspension without delay, giving all the necessary reasons and details and the envisaged date for resuming the performance of the FWC, order form or specific contract.

Once the circumstances allow resuming performance, the contractor shall inform EDA immediately, unless EDA has already terminated the FWC, order form or specific contract.

II.13.2 Suspension by EDA

EDA may suspend the performance of the FWC or order form or specific contract or any part thereof:

(a) if the FWC or order form or specific contract award procedure or the performance of the FWC prove to have been subject to substantial errors, irregularities or fraud;

(b) in order to verify whether presumed substantial errors, irregularities or fraud have actually occurred.

Suspension shall take effect on the day the contractor receives formal notification, or at a later date where the notification so provides. EDA shall as soon as possible give notice to the contractor to resume the service suspended or inform the contractor that it is proceeding with termination of the FWC or order form or specific contract. The contractor shall not be entitled to claim compensation on account of suspension of the FWC or order form or specific contract or of part thereof.

ARTICLE II. 14 – TERMINATION OF THE FWC

II.14.1 Grounds for termination

EDA may terminate the FWC, an order form or a specific contract respectively in the following circumstances:

- (a) if a change to the contractor's legal, financial, technical or organisational or ownership situation is likely to affect the performance of the FWC or order form or specific contract substantially or call into question the decision to award the FWC;
- (b) if execution of the tasks under a pending order form or a specific contract has not actually commenced within 15 days of the date foreseen, and the new date proposed, if any, is considered unacceptable by EDA, taking into account article II.8.2;
- (c) if the contractor does not perform the FWC or an order form or specific contract as established in the tender specifications or request for service or fails to fulfil another substantial contractual obligation; termination of three or more order forms or specific contracts on this ground shall constitute ground for termination of the FWC;
- (d) in the event of force majeure notified in accordance with article II.11 or if the performance of the FWC or order form or specific contract has been suspended by the contractor as a result of force majeure, notified in accordance with article II.13, where either resuming performance is impossible or the modifications to the FWC or order form or specific contract might call into question the decision awarding the FWC or order form or specific contract, or result in unequal treatment of tenderers or contractors;
- (e) if the contractor is declared bankrupt, is being wound up, is having its affairs administered by the courts, has entered into an arrangement with creditors, has suspended business activities, is the subject of proceedings concerning those matters, or is in any analogous situation arising from a similar procedure provided for in national legislation or regulations;

- (f) if the contractor or any natural person with the power to represent it or take decisions on its behalf has been found guilty of professional misconduct proven by any means;
- (g) if the contractor is not in compliance with its obligations relating to the payment of social security contributions or the payment of taxes in accordance with the legal provisions of the country in which it is established or with those of the country of the applicable law of this FWC or those of the country where the FWC is to be performed;
- (h) if EDA has evidence that the contractor or any natural persons with the power to represent it or take decisions on its behalf have committed fraud, corruption, or are involved in a criminal organisation, money laundering or any other illegal activity detrimental to the Union's financial interests;
- (i) if EDA has evidence that the contractor or any natural persons with the power to represent it or take decisions on its behalf have committed substantial errors, irregularities or fraud in the award procedure or the performance of the FWC, including in the event of submission of false information;
- (j) if the contractor is unable, through its own fault, to obtain any permit or licence required for performance of the FWC or order form or specific contract;
- (k) if the needs of EDA change and it no longer requires new services under the FWC;
- (l) when due to the termination of the FWC with one or more of the contractors there is no minimum required competition within the multiple framework contract with reopening of competition.

II.14.2 Procedure for termination

When EDA intends to terminate the FWC or order form or specific contract it shall formally notify the contractor of its intention specifying the grounds thereof. EDA shall invite the contractor to make any observations and, in the case of point (c) of Article II.14.1, to inform EDA about the measures taken to continue the fulfilment of its contractual obligations, within 30 days from receipt of the notification.

If EDA does not confirm acceptance of these observations by giving written approval within 30 days of receipt, the termination procedure shall proceed. In any case of termination EDA shall formally notify the contractor about its decision to terminate the FWC or order form or specific contract. In the cases referred to in points (a), (b), (c), (e), (g), (j), (k) and (l) of Article II.14.1 the formal notification shall specify the date on which the termination takes effect. In the cases referred to in points (d), (f), (h), and (i) of Article II.14.1 the termination shall take effect on the day following the date on which notification of termination is received by the contractor.

II.14.3 Effects of termination

In the event of termination, the contractor shall waive any claim for consequential damages, including any loss of anticipated profits for uncompleted work. On receipt of the notification of termination, the contractor shall take all the appropriate measures to minimise costs, prevent damages, and cancel or reduce its commitments. The contractor shall have 60 days from the date of termination to draw up the documents

required by the special conditions or order forms or specific contracts for the tasks already executed on the date of termination and produce an invoice if necessary. EDA may recover any amounts paid under the FWC.

EDA may claim compensation for any damage suffered in the event of termination.

On termination EDA may engage any other contractor to execute or complete the services. EDA shall be entitled to claim from the contractor all extra costs incurred in this regard, without prejudice to any other rights or guarantees it may have under the FWC.

ARTICLE II. 15 – REPORTING AND PAYMENTS

II.15.1 Date of payment

Payments shall be deemed to be effected on the date when they are debited to EDA's account.

II.15.2 Currency

The FWC shall be in euros.

Payments shall be executed in euros or in the local currency as provided for in Article I.5.

Conversion between the euro and another currency shall be made according to the daily euro exchange rate published in the *Official Journal of the European Union* or, failing that, at the monthly accounting exchange rate established by the European Commission and published on its website, applicable on the day on which the payment order is issued by EDA.

II.15.3 Costs of transfer

The costs of the transfer shall be borne in the following way:

- (a) costs of dispatch charged by the bank of EDA shall be borne by EDA,
- (b) cost of receipt charged by the bank of the contractor shall be borne by the contractor,
- (c) costs for repeated transfer caused by one of the parties shall be borne by the party causing repetition of the transfer.

II.15.4 Invoices and Value Added Tax

Invoices shall contain the contractor's identification, the amount, the currency and the date, as well as the FWC reference and reference to the order form or specific contract.

Invoices shall indicate the place of taxation of the contractor for value added tax (VAT) purposes and shall specify separately the amounts not including VAT and the amounts including VAT.

All acquisitions under this contract are exempt from all taxes and duties, including value added tax (VAT) pursuant to Article 27.3 of Council Decision (CFSP) 2015/1835 of 12 October 2015, which provides that “privileges and immunities” of the Agency are provided for in Protocol (No 7) on the privileges and immunities of the European

Union, annexed to the TEU and to the Treaty on the Functioning of the European Union. For intra-EU purchases, the contractor shall mention in the invoice(s): "VAT Exemption/European Union/Article 151 of Council Directive 2006/112/EC".

Where VAT is due in Belgium, the contractor must include the following statement in the invoice(s): "Commande destinée à l'usage officiel de l'Union Européenne, Exemption de la TVA; article 42 § 3, alinéa 1er 3°, du code de la TVA. Décision ministérielle ET 121.600/A3/LAS du 18 décembre 2012" or an equivalent statement in the Dutch or German language.

The contractor shall accordingly complete the necessary formalities with the relevant authorities to ensure that the supplies and services required for performance of the FWC are exempt from taxes and duties, including VAT exemption.

II.15.5 Pre-financing and performance guarantees

Pre-financing guarantees shall remain in force until the pre-financing is cleared against interim payments or payment of the balance and, in case the latter takes the form of a debit note, three months after the debit note is notified to the contractor. EDA shall release the guarantee within the following month.

Performance guarantees shall cover performance of the service in accordance with the terms set out in the request for services until its final acceptance by EDA. The amount of the performance guarantee shall not exceed the total price of the order form or specific contract. The guarantee shall provide that it remains in force until final acceptance. EDA shall release the guarantee within a month following the date of final acceptance.

Where, in accordance with Article I.4, a financial guarantee is required for the payment of pre-financing, or as performance guarantee, it shall fulfil the following conditions:

- (a) the financial guarantee is provided by a bank or an approved financial institution or, at the request of the contractor and agreement by EDA, by a third party;
- (b) the guarantor stands as first-call guarantor and does not require EDA to have recourse against the principal debtor (the contractor).

The cost of providing such guarantee shall be borne by the contractor.

II.15.6 Interim payments and payment of the balance

The contractor shall submit an invoice for interim payment upon delivery of intermediary results, accompanied by a progress report or any other documents, as provided for in Article I.4 or in the tender specifications or in the order form or specific contract.

The contractor shall submit an invoice for payment of the balance within 60 days following the end of the period referred to in Article III.2.2, accompanied by a final progress report or any other documents provided for in Article I.4 or in the tender specifications or in the order form or specific contract.

Upon receipt, EDA shall pay the amount due as interim or final payment, within the periods specified in Article I.4, provided the invoice and documents have been approved and without prejudice to Article II.15.7. Approval of the invoice and

documents shall not imply recognition of the regularity or of the authenticity, completeness and correctness of the declarations and information they contain.

Payment of the balance may take the form of recovery.

II.15.7 Suspension of the time allowed for payment

EDA may suspend the payment periods specified in Article I.4 at any time by notifying the contractor that its invoice cannot be processed, either because it does not comply with the provisions of the FWC, or because the appropriate documents have not been produced.

EDA shall inform the contractor in writing as soon as possible of any such suspension, giving the reasons for it.

Suspension shall take effect on the date the notification is sent by EDA. The remaining payment period shall start to run again from the date on which the requested information or revised documents are received or the necessary further verification, including on-the-spot checks, is carried out. Where the suspension period exceeds two months, the contractor may request EDA to justify the continued suspension.

Where the payment periods have been suspended following rejection of a document referred to in the first paragraph and the new document produced is also rejected, EDA reserves the right to terminate the order form or specific contract in accordance with Article II.14.1(c).

II.15.8 Interest on late payment

On expiry of the payment periods specified in Article I.4, and without prejudice to Article II.15.7, the contractor is entitled to interest on late payment at the rate applied by the European Central Bank for its main refinancing operations in Euros (the reference rate) plus eight points. The reference rate shall be the rate in force on the first day of the month in which the payment period ends, as published in the C series of the *Official Journal of the European Union*.

The suspension of the payment period in accordance with Article II.15.7 may not be considered as a late payment.

Interest on late payment shall cover the period running from the day following the due date for payment up to and including the date of actual payment as defined in Article II.15.1.

However, when the calculated interest is lower than or equal to EUR 200, it shall be paid to the contractor only upon request submitted within two months of receiving late payment.

ARTICLE II. 16 - REIMBURSEMENTS

II.16.1 Where provided by the special conditions or by the tender specifications, EDA shall reimburse the expenses that are directly connected with execution of the tasks on production of original supporting documents, including receipts and used tickets, or failing that, on production of copies or scanned originals, or on the basis of flat rates.

II.16.2 Travel and subsistence expenses shall be reimbursed, where appropriate, on the basis of the shortest itinerary and the minimum number of nights necessary for overnight stay at the destination.

II.16.3 Travel expenses shall be reimbursed as follows:

- (a) travel by air shall be reimbursed up to the maximum cost of an economy class ticket at the time of the reservation;
- (b) travel by boat or rail shall be reimbursed up to the maximum cost of a first class ticket;
- (c) travel by car shall be reimbursed at the rate of one first class rail ticket for the same journey and on the same day;

In addition, travel outside Union territory shall be reimbursed provided EDA has given its prior written consent.

II.16.4 Subsistence expenses shall be reimbursed on the basis of a daily subsistence allowance as follows:

- (a) for journeys of less than 200 km for a return trip, no subsistence allowance shall be payable;
- (b) daily subsistence allowance shall be payable only on receipt of supporting documents proving that the person concerned was present at the destination;
- (c) daily subsistence allowance shall take the form of a flat-rate payment to cover all subsistence expenses, including meals, local transport which includes transport to and from the airport or station, insurance and sundries;
- (d) daily subsistence allowance shall be reimbursed at the flat rates specified in Article I.3;
- (e) accommodation shall be reimbursed on receipt of supporting documents proving the necessary overnight stay at the destination, up to the flat-rate ceilings specified in Article I.3.

II.16.5 The cost of shipment of equipment or unaccompanied luggage shall be reimbursed provided EDA has given prior written authorisation.

II.16.6. Conversion between the euro and another currency shall be made as specified in Article II.15.2.

ARTICLE II. 17 – RECOVERY

II.17.1 If an amount is to be recovered under the terms of the FWC, the contractor shall repay EDA the amount in question according to the terms and by the date specified in the debit note.

II.17.2 If the obligation to pay the amount due is not honoured by the date set by EDA in the debit note, the amount due shall bear interest at the rate indicated in Article II.15.8. Interest on late payments shall cover the period from the day following the due date for payment up to and including the date when EDA receives the full amount owed.

Any partial payment shall first be entered against charges and interest on late payment and then against the principal amount.

- II.17.3** If payment has not been made by the due date, EDA may, after informing the contractor in writing, recover the amounts due by offsetting them against any financial guarantee.

ARTICLE II. 18 – CHECKS AND AUDITS

- II.18.1** EDA may check or have an audit on the performance of the FWC. It may be carried out either directly by its own staff or by any other outside body authorised to do so on its behalf.

Such checks and audits may be initiated during the performance of the FWC and during a period of five years which starts running from the date of expiry of the FWC.

The audit procedure shall be deemed to be initiated on the date of receipt of the relevant letter sent by EDA. Audits shall be carried out on a confidential basis.

- II.18.2** The contractor shall keep all original documents stored on any appropriate medium, including digitised originals when they are authorised by national law and under the conditions laid down therein, for a period of five years which starts running from the date of expiry of the FWC.

- II.18.3** The contractor shall allow EDA's staff and outside personnel authorised by EDA the appropriate right of access to sites and premises where the FWC is performed and to all the information, including information in electronic format, needed in order to conduct such checks and audits. The contractor shall ensure that the information is readily available at the moment of the check or audit and, if so requested, that information be handed over in an appropriate form.

- II.18.4** On the basis of the findings made during the audit, a provisional report shall be drawn up. It shall be sent to the contractor, which shall have 30 days following the date of receipt to submit observations. The final report shall be sent to the contractor within 60 days following the expiry of that deadline.

On the basis of the final audit findings, EDA may recover all or part of the payments made and may take any other measures which it considers necessary.

- II.18.5** The College of Auditors shall have the same rights as EDA, notably right of access, for the purpose of checks and audits.
