hereinafter referred to as “*the Contractor*”, represented for the purposes of signature of this framework contract by [Complete name in full and function], on the other part,

HAVE AGREED

to the **Special Conditions** and the **General Conditions** below and the following annexes:

- Annex I** – Tender specifications EEA/DIS/R0/19/007
- Annex II** – Contractor’s tender [REFERENCE and DATE]
- Annex III** – Model for specific contracts
- Annex IV** – Model Contractor’s statement concerning rights to delivered results

which forms an integral part of this framework contract (hereinafter referred to as “*the Contract*”).

The terms set out in the Special Conditions shall take precedence over those in the other parts of the Contract.

The terms set out in the General Conditions shall take precedence over those in the Annexes.

The terms set out in the Tender specifications (Annex I) shall take precedence over those in the specific contract (Annex III), the latter taking precedence over the Contractor’s tender (Annex II).

All documents issued by the Contractor (end-agreements, general terms and conditions, etc.) except its tender (Annex II) are held inapplicable, unless explicitly specified in the Special Conditions of this Contract. In all circumstances, in the event of contradiction between the provisions in this Contract and documents issued by the Contractor, this Contract shall prevail, regardless of any provision to the contrary in the Contractor’s documents.

Subject to the above, the several instruments forming part of the Contract are to be taken as mutually explanatory. Ambiguities or discrepancies within or between such parts shall be explained or rectified by a written instruction issued by the Agency, subject to the rights of the Contractor under Article I.8 should he dispute any such instruction.

Furthermore, each provision in the Special Conditions and General Conditions is severable and distinct from the others. If a provision is or becomes illegal, invalid or unenforceable to any extent, it must be severed from the remainder provisions of the Contract. This does not affect the legality, validity or enforceability of any other provisions of the Contract, which continue in full force and effect. The illegal, invalid, or unenforceable provision must be replaced by a legal, valid and enforceable substitute provision, which corresponds as closely as possible with the actual intent of the parties under the illegal, invalid or unenforceable provision. The replacement of such provision must be made in accordance with Article II.20. The Contract must be interpreted as if it had contained the substitute provision as from its entry into force.

I – SPECIAL CONDITIONS

ARTICLE I.1 – SUBJECT

- I.1.1** The subject of the Contract is the implementation of the High Resolution Vegetation Phenology and Productivity Monitoring of the Copernicus Land Monitoring Service.
- I.1.2** Signature of the Contract imposes no obligation on the Agency to purchase. Only implementation of the Contract through specific contracts is binding on the Agency.
- I.1.3** Once implementation of the Contract has been asked or has commenced, the Contractor shall reply and provide the services in accordance with all the terms and conditions of the Contract and the relevant specific contract.
- I.1.4** The Contract does not confer on the Contractor any exclusive right to provide the services described in the tender specifications (Annex I) to the Agency.

ARTICLE I.2 – ENTRY INTO FORCE AND DURATION

- I.2.1** The Contract shall enter into force on the date on which it is signed by the Agency.
- I.2.2** Under no circumstances may implementation of the Contract commence before the date on which it enters into force. Similarly, provision of services may under no circumstances begin before the date on which the relevant specific contract enters into force.
- I.2.3** The Contract is concluded for an initial period of 24 (twenty four) months with effect from the date on which it enters into force as specified in Article I.2.1, with the possibility of maximum two renewals for a period of 12 months each. These contractual periods and other periods specified in the Contract are calculated in calendar days unless otherwise indicated.
- I.2.4** The parties must sign any specific contract before the Contract expires. The contract shall continue to apply to such specific contracts after its expiry. The services relating to such specific contracts must be performed no later than six months after the expiry of the Contract.

ARTICLE I.3 – PRICES

- I.3.1** The maximum budget available for the Contract is EUR [complete in figures and words] over a maximum period of 48 (forty-eight) months. However, this binds in no way the Agency to purchase for the maximum budget.
- I.3.2** The prices of the services shall be as listed in the Contractor's tender (Annex II) and expressed in EUR. The prices indicated in the specific contracts cover any fees payable to the Contractor in relation to the vesting of rights in the Union and where applicable the transfer of rights to the Union and any use of the results by the Agency.
- I.3.3** The prices shall be fixed and not subject to revision for the first year of performance of the Contract.

At the beginning of the second year of performance of the Contract and every following year, each price may be revised upwards or downwards at the request of one of the contracting parties. A contracting party shall request the price revision by registered mail no later than 31 July so that the new prices may take effect on 1 January the following year. The other party shall acknowledge the price revision request in writing within fourteen calendar days of receipt.

The price revision shall be determined by the trend in the harmonised indices of consumer prices (HICP) published by the European Commission on Eurostat web page at <https://ec.europa.eu/eurostat/data/database> (Theme - Economy and finance; Prices (prc); Harmonised indices of consumer prices (HICP) (prc_hicp); HCIP (2015 = 100) – monthly data (index) (prc_hicp_midx); GEO – Euro Area (EA11-2000, EA-12-2006, EA13-2007, EA15-2008, EA16-2010, EA17-2013, EA18-2014, EA19).

The price revision shall be calculated in accordance with the following formula:

$$Pr = Po \times (Ir / Io)$$

where:

Pr = revised price;

Po = price in the original tender;

Ir = Index for the month corresponding to the date of receipt of the letter requesting the price revision;

Io = index of the month in which the Contract enters into force.

- (a) *'results'* means any intended outcome of the performance of the Contract, whatever its form or nature, which is delivered and finally or partially approved by the Agency; a result may be further defined in this Contract as a deliverable; a result may, in addition to materials produced by the Contractor or at its request, also include pre-existing materials;
- (b) *'creator'* means any natural person who contributed to the production of the result and includes personnel of the Agency or a third party;
- (c) *'pre-existing material'* means any material, document, technology or know-how which exists prior to the Contractor using it for the production of the result in the performance of the Contract;
- (d) *'pre-existing right'* means any industrial or intellectual property right on pre-existing material; it may consist in a right of ownership, a license right and/or right of use belonging to the Contractor, the creator, the Agency as well as to any other third parties;

II.7.2 Ownership of the rights in the results

The Agency acquires irrevocably worldwide ownership of the results and of all intellectual property rights on the newly created materials produced specifically for the Agency under the Contract and incorporated in the results. The intellectual property rights so acquired include any rights, such as copyright and other intellectual or industrial property rights, to any of the results and in all technological solutions and information created or produced by the Contractor or by his subcontractors in performance of the Contract or specific contracts. The Agency may exploit and use the acquired rights as stipulated in this Contract and specific contracts. The Agency acquires all the rights from the moment the Contractor has created the results.

Any intermediary sub-result, raw data, intermediary analysis made by the Contractor cannot be used by the Agency without the written consent of the Contractor, unless the Contract or the specific contract explicitly provides for it to be treated as self-contained result.

II.7.3 Licensing rights on pre-existing materials

Unless provided otherwise in the special conditions, the Agency does not acquire ownership of pre-existing rights under this Contract.

The Contractor shall license the pre-existing rights on a royalty-free, non-exclusive and irrevocable basis to the Agency, which may use the pre-existing materials for all the modes of exploitation as set in Article 1.9 or in specific contracts. Unless otherwise agreed, the licence is non-transferable and cannot be sub-licensed, except as provided hereafter:

- (a) the pre-existing rights can be sub-licensed by the Agency to persons and entities working for it or cooperating with it, including contractors and subcontractors, whether legal or natural persons, but only for the purpose of their mission for the Agency;

(b) if the result is a "document" such as a report or a study, and it is meant to be published, the existence of pre-existing materials in the result may not prevent the publication of the document, its translation or its "reuse", it being understood however that the "reuse" may only be made of the result as a whole and not of the pre-existing materials taken separately from the result; for the sake of this provision, "reuse" and "document" have the meaning given by the Commission Decision of 12 December 2011 on the reuse of Commission documents (2011/833/EU).

All pre-existing rights shall be licensed to the Agency from the moment the results were delivered and approved by the Agency.

The licensing of pre-existing rights to the Agency under this Contract covers all territories worldwide and is valid for the whole duration of intellectual property rights protection.

The payment of the price as set out in the specific contracts is deemed to include any fees payable to the Contractor in relation to the acquisition of ownership of rights by the Agency including for all forms of exploitation and use of the results.

Where performance of the Contract requires that the Contractor uses pre-existing materials belonging to the Agency, the Agency may request that the Contractor signs an adequate licence agreement. Such use by the Contractor will not entail any transfer of rights to the Contractor and is limited to the needs of this Contract.

II.7.4 Exclusive rights

The Agency acquires the following exclusive rights:

- (a) reproduction: the right to authorise or prohibit direct or indirect, temporary or permanent reproduction of the results by any means (mechanical, digital or other) and in any form, in whole or in part;
- (b) communication to the public: the exclusive right to authorise or prohibit any display, performance or communication to the public, by wire or wireless means, including the making available to the public of the results in such a way that members of the public may access them from a place and at a time individually chosen by them; this right also include the communication and broadcasting by cable or by satellite;
- (c) distribution: the exclusive right to authorise or prohibit any form of distribution of results or copies of the results to the public, by sale or otherwise;

- (e) adaptation: the exclusive right to authorise or prohibit any modification of the results;
- (f) translation: the exclusive right to authorise or prohibit any translation, adaptation, arrangement, creation of derivative works based on the results, and any other alteration of the results, subject to the respect of moral rights of authors, where applicable;
- (g) where the results are or include a database: the exclusive right to authorise or prohibit the extraction of all or a substantial part of the contents of the database to another medium

by any means or in any form; and the exclusive right to authorise or prohibit the re-utilisation of all or a substantial part of the contents of the database by the distribution of copies, by renting, by on-line or other forms of transmission;

- (h) where the results are or include a patentable subject-matter: the right to register them as a patent and to further exploit such patent to the fullest extent;
- (i) where the results are or include logos or subject-matter which could be registered as a trademark: the right to register such logo or subject-matter as a trademark and to further exploit and use it;
- (j) where the results are or include know-how: the right to use such know-how as is necessary to make use of the results to the full extent provided for by this Contract, and the right to make it available to contractors or subcontractors acting on behalf of the Agency, subject to their signing of adequate confidentiality undertakings where necessary;
- (k) where the results are documents:
 - (i) the right to authorise the reuse of the documents in conformity with the Commission Decision of 12 December 2011 on the reuse of Commission documents (2011/833/EU), to the extent it is applicable and the documents fall within its scope and are not excluded by any of its provisions; for the sake of this provision, the terms “reuse” and “document” have the meaning given to them by this Decision;
 - (ii) the right to store and archive the results in line with the document management rules applicable to the Agency, including digitalisation or converting the format for preservation or new use purposes;
- (l) where the results are or incorporate software, concerning source code, object code and, where relevant, documentation, preparatory materials and manuals, in addition to the other rights mentioned in this article:
 - (i) end-user rights, for all uses as it results from this Contract and the intention of the parties, by the Agency or by subcontractors acting on behalf of the Agency;
 - (ii) the rights to decompile or disassemble the software;
 - (iii) the rights to receive both the source code and the object code;
- (m) the right to license, or sub-license in case of licensed pre-existing rights, to third parties any of the exclusive rights or of the modes of exploitation set out in this Contract;
- (n) to the extent that the Contractor may invoke moral rights, the right for the Agency, except where otherwise provided in this Contract, to publish the results with or without mentioning the creator(s)' name(s), and the right to decide when and whether the results may be disclosed and published.

The Contractor warrants that the exclusive rights and the modes of exploitation may be exercised by the Agency on all parts of the results, be they created by the Contractor or consisting of pre-existing materials.

Where pre-existing materials are inserted in the results, the Agency may accept reasonable restrictions impacting on the above list, provided that the said materials are easily identifiable and separable from the rest, that they do not correspond to substantial elements of the results, and that, should the need arise, satisfactory replacement solutions exist, at no additional costs to the Agency. In such case, the Contractor will have to clearly inform the Agency before making such choice and the Agency has the right to refuse it.

II.7.5 Identification of pre-existing rights

When delivering the results, the Contractor shall warrant that, for any use that the Agency may envisage within the limits set in this Contract, the results and the pre-existing material incorporated in the results are free of rights or claims from creators or from any third parties and all the necessary pre-existing rights have been obtained or licensed.

To that effect, the Contractor shall establish a list of all pre-existing rights to the results of this Contract or parts thereof, including identification of the owners of the rights. If there are no pre-existing rights to the results, the Contractor shall provide a declaration to that effect. The Contractor shall provide the list or declaration to the Agency together with the invoice for payment of the balance at the latest.

II.7.6 Evidence of granting of pre-existing rights

Upon request by the Agency, the Contractor shall provide evidence that it has the ownership or the right to use all the listed pre-existing rights, except for the rights owned or licensed by the Agency. The Agency may request this evidence even after the end of this Contract.

The evidence may refer, inter alia, to rights to: parts of other documents, images, graphs, tables, data, software, technical inventions, know-how, etc... (delivered in paper, electronic or other form), IT development tools, routines, sub-routines and/or other programs ("*background technology*") concepts, designs, installations or pieces of art, data, source or backgrounds materials or any other parts of external origin.

The evidence shall include, as appropriate:

- (a) the name and version number of a software product;
- (b) the full identification of the work and its author, developer, creator, translator, data entry person, graphic designer, publisher, editor, photographer, producer;
- (c) a copy of the license to use the product or of the agreement granting the relevant rights to the Contractor or a reference to this license;
- (d) a copy of the agreement or extract from the employment contract granting the relevant rights to the Contractor where parts of the results were created by its personnel;
- (e) the text of the disclaimer notice if any.

Provision of evidence does not release the Contractor from its responsibilities in case it is found that it does not hold the necessary rights, regardless of when and by whom this fact was revealed.

The Contractor also warrants that it possesses the relevant rights or powers to execute the transfer and that it has paid or has verified payment of all due fees including fees due to collecting societies, related to the final results.

II.7.7 Quotation of works in the results

In the results, the Contractor shall clearly point out all quotations of existing works. The complete reference should include, as appropriate, the following: name of the author, title of the work, date and place of publication, date of creation, address of publication on the internet, number, volume and other information that allows the origin to be easily identified.

II.7.8 Moral rights of creators

By delivering the results, the Contractor warrants that the creators will not object to the following on the basis of their moral rights under copyright:

- (a) that their names be mentioned or not mentioned when the results are presented to the public;
- (b) that the results be divulged or not after they have been delivered in their final version to the Agency;
- (c) that the results be adapted, provided that this is done in a manner which is not prejudicial to the creator's honour or reputation.

If moral rights or parts of the results protected by copyright may exist, the Contractor must obtain the consent of creators regarding the granting or waiver of the relevant moral rights in accordance with the applicable legal provisions and be ready to provide documentary evidence upon request.

II.7.9 Image rights and sound recording

If natural persons appear in a result or their voice or any other private element is recorded in a recognisable manner, the Contractor must obtain a statement by these persons (or, in the case of minors, by the persons exercising parental authority) giving their permission for the described use of their image, voice or private element and, on request, submit a copy of the permission to the Agency. The Contractor shall take the necessary measures to obtain such consent in accordance with the applicable legal provisions.

II.7.10 Copyright notice for pre-existing rights

When the Contractor retains pre-existing rights on parts of the results, reference must be inserted to that effect when the results is used as set out in Article I.9, with the following disclaimer: "*© - year – European Union. All rights reserved. Certain parts are licensed under conditions to the European Union*", or with any other equivalent disclaimer as the Agency may consider best appropriate, or as the parties may agree on a case-by-case basis. This does not apply where inserting such reference would be impossible, notably for practical reasons.

II.7.11 Visibility of the Union funding and disclaimer

When making use of the results, the Contractor shall declare that they have been produced within a contract with the Agency and that the opinions expressed are those of the Contractor only and do not represent the Agency's official position. The Agency may waive this obligation in writing or provide the text of the disclaimer.

II.8 – FORCE MAJEURE

- II.8.1** Force majeure shall mean any unforeseeable and exceptional situation or event beyond the control of the contracting parties which prevents either of them from performing any of their obligations under the Contract, was not due to error or negligence on their part or on the part of a subcontractor, and could not have been avoided by the exercise of due diligence. Defaults of service, defects in equipment or material or delays in making it available, labour disputes, strikes or financial problems cannot be invoked as force majeure unless they stem directly from a relevant case of force majeure.
- II.8.2** Without prejudice to the provisions of Article II.1.9, if either contracting party is faced with force majeure, it shall notify the other party without delay in writing stating the nature of the circumstances, their likely duration and foreseeable effects.
- II.8.3** Neither contracting party shall be held liable for any delay or failure to perform its obligations under the Contract if that delay or failure is a result of force majeure. Where the Contractor is unable to perform its contractual obligations owing to force majeure, it shall have the right to remuneration only for tasks actually executed or services actually provided.
- II.8.4** The contracting parties shall take all necessary measures to reduce any damage due to force majeure to a minimum.

II.9 – SUBCONTRACTING

- II.9.1** The Contractor shall not subcontract and have the Contract implemented by third parties beyond the third parties already mentioned in its tender (Annex II) without prior written authorisation from the Agency.
- II.9.2** Even where the Agency authorised the Contractor to subcontract to third parties, it shall none the less remain bound by its obligations to the Agency under the Contract and it shall bear exclusive liability for proper performance of the Contract.
- II.9.3** The Contractor shall ensure that the subcontract does not affect rights and guarantees to which the Agency is entitled by virtue of the Contract, notably those under Articles II.4, II.7 and II.19.
- II.9.4** The Agency may request the Contractor to replace a subcontractor found to be in a situation provided for in points (d) and (e) of Article II.12.1.

II.10 – ASSIGNMENT

- II.10.1** The Contractor shall not assign in whole or in part any of the rights and obligations arising from the Contract, including claims for payments or factoring, without prior written authorisation from the Agency. In such cases, the Contractor must provide the Agency with the identity of the intended assignee.
- II.10.2** Any right or obligation assigned by the Contractor without authorisation is not enforceable against the Agency.

II.11 – SUSPENSION OF THE IMPLEMENTATION OF THE CONTRACT

- II.11.1** Suspension by the Contractor

If the Contractor is affected by force majeure, it may suspend the provision of the services under a specific contract. The Contractor shall immediately notify the Agency in writing of the suspension, stating the nature of the circumstances of force majeure and when the Contractor expects to resume provision of the services. The Contractor shall notify in writing the Agency as soon as it is able to resume performance of a specific contract, unless the Agency has already terminated the Contract or the specific contract.

II.11.2 Suspension by the Agency

Without prejudice to the Agency's right to terminate the Contract, the Agency may suspend implementation of the Contract or performance of a specific contract or any part thereof, if the procedure for awarding the Contract or a specific contract, or the implementation of the Contract proves to have been subject to breach of obligations, irregularities or fraud; or in order to verify whether the presumed breach of obligations, irregularities or fraud have actually occurred.

The Agency shall formally notify the Contractor in writing of the suspension and the reasons for it. Suspension shall take effect on the day the Contractor receives the notification or at a later date where the notification so provides. The Agency shall as soon as possible give written notice to the Contractor whether the suspension is lifted and provision of the services shall resume or inform that it intends to terminate the Contract or a specific contract pursuant to the provisions in Article II.12.1 point (f) or (j).

The Contractor shall not be entitled to claim compensation on account of suspension of the Contract, of a specific contract or of part thereof.

II.12 – TERMINATION OF THE CONTRACT

II.12.1 Grounds for termination by the Agency

The Agency may terminate the Contract or a specific contract in the following circumstances:

- (a) if provision of the services under a pending specific contract has not actually started within 15 (fifteen) calendar days of the scheduled date and the Agency considers the new date proposed, if any, unacceptable, taking into account the provisions in Article II.20.2;
- (b) if the Contractor is unable, through his own fault, to obtain any permit or licence required for performance of the Contract;
- (c) if the Contractor does not implement the Contract or perform the specific contract in accordance with the tender specifications (Annex I) or is in breach of another substantial contractual obligation or repeatedly refuses to sign specific contracts; termination of 3 (three) or more specific contracts in these circumstances also constitutes grounds for termination of the Contract;
- (d) if the Contractor or any person that assumes unlimited liability for the debts of the Contractor is in one of the situations provided for in points (a) and (b) of Article 136(1) of the Financial Regulation;

- (e) if the Contractor or any related person is subject to any of the situations provided for in in points (c) to (h) of Article 136(1) or to Article 136(2) of the Financial Regulation;
- (f) if the procedure for awarding the Contract or the implementation of the Contract prove to have been subject of breach of obligations, irregularities or fraud;
- (g) if the Contractor does not comply with applicable obligations under environmental, social and labour law established by Union law, national law, collective agreements or by the international environmental, social and labour law provisions listed in Annex X to Directive 2014/24/EU⁶;
- (h) if the Contractor is in a situation that could constitute a conflict of interest or a professional conflicting interest as referred to in Article II.3;
- (i) if a change to the Contractor's legal, financial, technical, organisational or ownership situation is likely to substantially affect the implementation of the Contract or substantially modify the conditions under which the Contract was initially awarded or a change regarding the exclusion situations listed in Article 136 of the Financial Regulation that calls into question the decision to award the contract;
- (j) in the event of force majeure, where either resuming implementation is impossible or the necessary ensuing amendments to the Contract or a specific contract would mean that the tender specifications (Annex I) are no longer fulfilled or result in unequal treatment of tenderers or contractors;
- (k) if the needs of the Agency change and it no longer requires new services under the Contract; in such cases, on-going specific contracts remain unaffected;
- (l) if the Contractor is in breach of the data protection obligations resulting from Article II.5.2;
- (m) if the Contractor does not comply with the applicable data protection obligations resulting from Regulation (EU) 2016/679.

II.12.2 Grounds for termination by the Contractor

The Contractor may terminate the Contract or any ongoing specific contract if the Agency fails to comply with its obligations, in particular the obligation to provide the information needed for the Contractor to implement the Contract or to perform a specific contract as provided for in the tender specifications.

II.12.3 Procedure for termination

A party shall formally notify the other party in writing of its intention to terminate the Contract or a specific contract stating the grounds for termination.

⁶ OJEU L 94/65 of 28.3.2014.

The other party shall have 30 (thirty) calendar days following the date of receipt of the notification to submit observations, including the measures it has taken to continue fulfilling its contractual obligations. Failing that, the decision to terminate becomes enforceable the day after the time limit for submitting observations has elapsed.

Within 15 (fifteen) calendar days of receipt of the observations, the party intending to terminate the Contract or a specific contract shall formally notify the other party either of the withdrawal of its intention to terminate or of its final decision to terminate.

In the cases referred to in points (a) to (d), (g) to (i), (k) and (m) of Article II.12.1 and in Article II.12.2, the date on which the termination takes effect must be specified in the formal notification.

In the cases referred to in points (e), (f) and (j) of Article II.12.1, the termination takes effect on the day following the date on which the Contractor receives notification of the termination.

In addition, at the request of the Agency and regardless of the grounds for termination, the Contractor shall provide all necessary assistance, including information, documents and files, to allow the Agency to complete, continue or transfer the services to a new contractor or internally, without interruption or adverse effect on the quality or continuity of the services. The parties may agree to draw up a transition plan detailing the Contractor's assistance unless such a plan is already detailed in other contractual documents or in the tender specifications (Annex I). The Contractor shall provide such assistance at no additional cost, except if it can demonstrate that it requires substantial additional resources or means, in which case it must provide an estimate of the costs involved and the parties will negotiate an arrangement in good faith.

II.12.4 Effects of termination

The Contractor is liable for damage incurred by the Agency as a result of the termination of the Contract or a specific contract, including the additional cost of appointing and contracting another contractor to provide or complete the services, except if the damage is a result of a termination in accordance with Article II.18.1(j) or (k) or Article II.18.2. The Agency may claim compensation for such damage.

The Contractor is not entitled to compensation for any loss resulting from the termination of the Contract or a specific contract, including loss of anticipated profits, unless the loss was caused by the situation specified in Article II.19.2.

On receipt of the letter terminating the Contract or a pending specific contract, the Contractor shall take all appropriate measures to minimise costs, prevent damage, and cancel or reduce its commitments. It shall draw up the documents required by the Special Conditions or the specific contract for the tasks already executed or the services already provided up to the date on which termination takes effect, and produce an invoice if necessary, within a period not exceeding 60 (sixty) calendar days from that date.

In the case of joint tenders, the Agency may terminate the Contract or a specific contract with each member of the consortium separately on the basis of points (d), (e), (g), (l) and (m) of Article II.12.1, under the conditions set out in Article II.20.2.

II.13 – LIQUIDATED DAMAGES

II.13.1 Delay in delivery

If the Contractor fails to perform its contractual obligations within the applicable time limits set out in the Contract, including the tender specifications (Annex I), the Agency may claim liquidated damages for each and every calendar day of delay according to the formula $0.3 \times (V/d)$, where V is the price of the relevant purchase or deliverable or result, and d is the duration specified in the relevant specific contract for delivery of the relevant purchase or deliverable or result, or failing that, the period between the date specified in Article I.4.2 and the date of delivery or performance specified in the relevant specific contract, expressed in calendar days.

Liquidated damages may be imposed together with a reduction in price under the conditions laid down in Article II.14.

II.13.2 Procedure

The Agency shall formally notify the Contractor of its intention to apply liquidated damages and the corresponding calculated amount.

The Contractor may submit observations against this decision within 30 (thirty) calendar days of receipt of the formal notification. In the absence of reaction on the part of the Contractor, the decision becomes enforceable the day after the time limit for submitting observations has elapsed.

If the Contractor submits observations, the Agency shall notify the Contractor in writing within 15 (fifteen) calendar days of receipt of the observations of the withdrawal of its intention to apply liquidated damages, or of its final decision to apply liquidated damages and the corresponding amount.

II.13.3 Nature of the liquidated damages

The parties expressly acknowledge and agree that any amount payable under this Article is not a penalty and represents a reasonable estimate of fair compensation for the damage incurred due to failure to provide the services within the applicable time limits set out in the Contract, including the tender specifications (Annex I).

II.13.4 Claims and liability

Any claim for liquidated damages does not affect the Contractor's actual or potential liability or the Agency's rights under Article II.12.

II.14 – REDUCTION IN PRICE

II.14.1 Quality standards

If the Contractor fails to provide the service in accordance with the Contract or a specific contract ("*unperformed obligations*") or if it fails to provide the services in accordance with the expected quality levels specified in the tender specifications (Annex I) ("*low quality delivery*"), the Agency may reduce or recover payments proportionally to the seriousness of the unperformed obligations or low quality delivery. This includes in particular cases where the Agency cannot approve a result, report or deliverable as specified in Article II.15.5 after the Contractor has submitted the required additional information, correction or new version.

A reduction in price may be imposed together with liquidated damages under the conditions set in Article II.13.

II.14.2 Procedure

The Agency shall formally notify the Contractor in writing of its intention to reduce payment and the corresponding calculated amount.

The Contractor may submit observations against this decision within 30 (thirty) calendar days from receipt of the formal notification. In the absence of reaction on the part of the Contractor, the decision becomes enforceable the day after the time limit for submitting observations has elapsed.

If the Contractor submits observations, the Agency shall notify the Contractor in writing within 15 (fifteen) calendar days of receipt of the observations of the withdrawal of its intention to reduce payment, or of its final decision to reduce payment and the corresponding amount.

II.14.3 Claims and liability

Any reduction of price does not affect the Contractor's actual or potential liability or the Agency's rights under Article II.12.

II.15 – PAYMENT ARRANGEMENTS

II.15.1 Payments shall be deemed to have been made on the date when the Agency's account is debited.

II.15.2 Payments shall be made in EUR or in the currency provided for in Article I.6.

II.15.3 The Agency makes any conversion between the euro and another currency at the daily euro exchange rate published in the Official Journal of the European Union, or failing that, at the monthly accounting exchange rate, as established by the European Commission and published on its website⁷, applicable on the day when it issues the payment order.

The Contractor makes any conversion between the euro and another currency at the monthly accounting exchange rate, established by the European Commission and published on its website⁸, applicable on the date of the invoice.

II.15.4 The costs of transfer are borne as follows:

- The Agency bears the costs of dispatched charged by its bank;
- The Contractor bears the costs of receipt charged by its bank;
- The party causing repetition of transfer bears the costs for repeated transfer.

II.15.5 The Agency may suspend the payment period referred to in Article I.5 at any time by notifying the Contractor that its invoice cannot be processed either because it does not comply with the Contract, or because the Contractor has not produced the appropriate documents or deliverables, or because the Agency has observations on the documents or deliverables submitted with the invoice.

The Agency shall notify the Contractor accordingly as soon as possible, stating the reason for suspension of the payment. Suspension shall take effect from the date of dispatch of the notification. The remaining payment period shall resume from the date on which the requested information or revised documents are received or the necessary further

verifications, including on-the-spot checks, are carried out. Where the suspension period exceeds 2 (two) months, the Contractor may request the Agency to justify the continued suspension.

Where the payment periods have been suspended following rejection of a document referred to in the first paragraph of this article and the new document produced is also rejected, the Agency reserves the right to terminate the specific contract in accordance with Article II.12.1 (c).

II.15.6 On expiry of the payment period specified in Article I.5, and without prejudice to the provisions in Article II.15.5, the Contractor is entitled to claim interest on late payment at the rate applied by the European Central Bank for its refinancing operations in euros (*"the reference rate"*) plus 8 (eight) points (*"the margin"*). The reference rate is the rate in force on the first day of the month in which the payment period ends, as published in the C series of the Official Journal of the European Union.

The suspension of the payment period in accordance with Article II.15.5 may not be considered as giving rise to late payment.

Interest on late payment shall cover the period running from the day following the due date for payment up to and including the date of the actual payment as defined in Article II.15.1. However, when the calculated interest is EUR 200 or less, it shall be paid to the Contractor only upon request within 2 (two) months of receiving late payment.

II.15.7 If, as provided for in a specific contract, a financial guarantee is required for the payment of pre-financing, as performance guarantee or as retention money guarantee, it must fulfil the following conditions:

- (a) the financial guarantee is provided by a bank or a financial institution approved by the Agency or, at the request of the Contractor and with the agreement of the Agency, by a third party; and
- (b) the guarantee shall have the effect of making the bank or financial institution or the third party provide irrevocable collateral security, or stand as first-call guarantor of the Contractor's obligations without requiring that the Agency has recourse against the principal debtor (the Contractor).

The Contractor bears the cost of providing such guarantee.

Pre-financing guarantees must remain in force until the pre-financing is cleared against interim payments or payment of the balance. Where the payment of the balance takes the form of a debit note, the pre-financing guarantee must remain in force for three months after the debit note is sent to the Contractor. The Agency must release the guarantee within the following month.

Performance guarantees cover compliance with substantial contractual obligations until the Agency has given its final approval for the service. The performance guarantee must not exceed 10 % of the total price of the specific contract. The Agency must release the guarantee fully after final approval of the service, as provided for in the specific contract.

Retention money guarantees cover full delivery of the service in accordance with the specific contract including during the contract liability period and until its final approval by the Agency. The retention money guarantee must not exceed 10 % of the total price of the specific contract. The Agency must release the guarantee after the expiry of the contract liability period as provided for in the specific contract.

The Agency must not request a retention money guarantee for a specific contract where it has requested a performance guarantee.

II.16 – REIMBURSEMENTS

II.16.1 If provided for in the Special Conditions or in the tender specifications (Annex I), the Agency shall reimburse expenses directly connected with the provision of the services either on production of supporting documents (including receipts and used tickets) or on the basis of flat rates.

II.16.2 The Agency shall reimburse travel and subsistence expenses on the basis of the shortest itinerary and the minimum number of nights necessary for overnight stay at the destination.

II.16.3 The Agency shall reimburse travel expenses as follows:

- (a) travel by air shall be reimbursed up to the maximum cost of an economy class ticket at the time of the reservation;
- (b) travel by boat or rail shall be reimbursed up to the maximum cost of a first class ticket;
- (c) travel by car shall be reimbursed at the rate of one first class rail ticket for the same journey and on the same day;
- (d) travel outside Union territory shall be reimbursed under the general conditions stated above provided the Agency has given its prior written agreement.

II.16.4 The Agency shall reimburse subsistence expenses on the basis of a daily subsistence allowance as follows:

- (a) for journeys of less than 200 km for a return trip no subsistence allowance shall be payable;
- (b) the daily subsistence allowance shall be payable only on receipt of supporting documents proving that the person concerned was present at the place of destination;
- (c) the daily subsistence allowance shall take the form of a flat-rate payment to cover all subsistence expenses, including meals, local transport including transport from the airport or station, insurance and sundries;
- (d) the daily subsistence allowance, where applicable, shall be reimbursed at the rate specified in Article I.3;
- (e) accommodation shall be reimbursed on receipt of supporting documents proving the necessary overnight stay at the destination, up to the flat-rate ceilings specified in Article I.3.

II.16.5 The cost of shipment of equipment or unaccompanied luggage shall be reimbursed, provided the Agency has given its prior written authorisation.

II.17 – RECOVERY

II.17.1 If an amount is to be recovered under the terms of the Contract, the Contractor shall repay the Agency the amount in question.

II.17.2 Before recovery, the Agency shall formally notify the Contractor of its intention to recover the amount it claims, specifying the amount due and the reasons for recovery and inviting the Contractor to make any observations within 30 (thirty) calendar days of receipt.

In the absence of reaction from the part of the Contractor or if, despite the observations submitted, the Agency decides to pursue the recovery procedure, it must confirm recovery by formally notifying a debit note to the Contractor, specifying the date of payment. The Contractor shall pay in accordance with the provisions specified in the debit note.

In the event of failure to pay by the due date specified in the debit note, the Agency may, after informing the Contractor in writing, recover the amounts due either by offsetting them against any amounts owed to the Contractor by the Agency, or by calling in a financial guarantee if the Contractor has provided one to the Agency, or by taking legal action.

II.17.3 If the Contractor does not honour the obligation to pay the amounts due by the date set by the Agency in the debit note, the amount due shall bear interest at the rate indicated in Article II.15.6. Interest shall be payable from the calendar day following the due date for payment up to the date when the Agency receives the full amount owed. Any partial payment is first entered against charges and interest on late payment and then against the principal amount.

II.7.4 If the Contract is signed by a consortium (joint tender), the consortium is jointly and severally liable under the conditions set out in Article II.2 (liability). The Agency shall send the debit note first to the coordinator of the consortium.

If the coordinator does not pay by the due date the whole amount, and if the amount due cannot be offset or can only be offset partially in accordance with Article II.17.2, then the Agency may claim the amount still due to any other member or members of the consortium by respectively notifying them with a debit note in conformity with the provisions laid down in Article II.17.2.

II.18 – TAXATION

II.18.1 The Contractor shall have sole responsibility for compliance with the tax laws which apply to it. Failure to comply shall make the relevant invoices invalid.

II.18.2 The Contractor acknowledges that the Agency is, as a rule, exempt from all taxes and duties, including value added tax (VAT), pursuant to the provisions of Articles 3 and 4 of the Protocol on the privileges and immunities of the European Union.

The Contractor shall accordingly complete the necessary formalities with the relevant authorities to ensure that the goods and services required for the performance of the Contract are exempt from taxes and duties, including VAT.

II.18.3 Invoices presented by the Contractor shall contain the Contractor's identification data, the amount, the currency and the date, as well as the reference to the Contract and the specific contract. In addition, invoices presented by the Contractor shall indicate its place of taxation for VAT purposes and shall specify separately the amounts not including VAT and the amounts including VAT.

II.18.4 If provided for in the Special Conditions, the Contractor shall submit invoices in electronic format if the conditions regarding electronic signature specified by Directive 2006/112/EC⁹ on VAT are fulfilled, i.e. using a qualified electronic signature or through electronic data interchange. Reception of invoices by standard format (PDF) or e-mail is not accepted.

II.19 – CHECKS AND AUDITS

II.19.1 The Agency and the European Anti-Fraud Office may check or require an audit on the performance of the Contract. This may be carried out either by the Agency's or the European Anti-Fraud Office's own staff or by any other outside body authorised to do so on their behalf.

Such checks and audit may be initiated at any time during the performance of the Contract and up to 5 (five) years starting from the date of payment of the balance of the last specific contract issued under this Contract.

The audit procedure shall be deemed to be initiated on the date of receipt of the relevant letter sent by the Agency. Audits shall be carried out on a confidential basis.

II.19.2 The Contractor shall keep all original documents stored on any appropriate medium, including digitised originals when they are authorised by the national law and under the conditions laid down therein, for a period of 5 (five) years starting from the date of payment of the balance of the last specific contract issued under this Contract.

II.19.3 The Contractor shall allow the Agency's staff and outside personnel authorised by the Agency the appropriate right of access to sites and premises where the Contract is performed and to all the information, including information in electronic format, needed in order to conduct such checks and audits. The Contractor shall ensure that the information is readily available at the moment of the check or audit and, if so requested, that information be handed over in an appropriate format.

II.19.4 On the basis of the findings made during the audit, a provisional report is drawn up and communicated to the Contractor who shall have 30 (thirty) calendar days following the date of receipt to submit observations. The final report shall be sent to the Contractor within 60 (sixty) calendar days following expiry of that deadline.

On the basis of the final audit findings, the Agency may recover all or part of the payments made in accordance with Article II.17 and may take any other measures which it considers necessary.

II.19.5 In accordance with Council Regulation (Euratom, EC) No 2185/96 of 11 November 1996 concerning on-the-spot checks and inspection carried out by the Commission in order to protect the European Communities' financial interests against fraud and other irregularities and Regulation (EU, Euratom) No 883/2013¹⁰ of the European Parliament and of the Council of 11 September 2013 concerning investigations conducted by the European Anti-Fraud Office, the European Anti-Fraud Office may carry out investigations, including on-the-spot checks and inspections, to establish whether there has been fraud, corruption or any other

illegal activity under the contract affecting the financial interests of the Union. Findings arising from an investigation may lead to criminal prosecution under national law.

The investigations may be carried out at any moment during the performance of the Contract and up to 5 (five) years after the payment of the balance of the last specific contract issued under this Contract.

II.19.6 The Court of Auditors and the European Public Prosecutor's Office established by Council Regulation (EU) 2017/1939¹¹ shall have the same rights as the Agency, notably right of access, for the purpose of checks, audits and investigations.

II.20 – AMENDMENTS

II.20.1 Any amendment to the Contract or a specific contract shall be the subject of a written agreement concluded between the contracting parties before fulfilment of all their contractual obligations. An oral amendment shall not be binding on the contracting parties. A specific contract may not be deemed to constitute an amendment to the Contract.

II.20.2 Any amendment may not have the purpose or the effect of making changes to the Contract or to specific contracts, which might alter the initial conditions of the procurement procedure or result in unequal treatment of tenderers or contractors.

II.21 – SUBMISSION OF ELECTRONIC DOCUMENTS THROUGH E-PRIOR

II.21.1 For the purposes of this contract the following definitions apply:

'Authorised persons': persons with access to the system (e-PRIOR) and which must be identified by the system via established means (authenticated user in ECAS – European Commission Authentication System).

'Back office': the internal system(s) used by the parties to process electronic documents, such as invoices;

'Electronic Data Interchange (EDI)': the electronic transfer, from computer to computer, of commercial and administrative data using an agreed standard to structure an EDI message.

'EDI message': an electronic document structured by using an agreed standard, prepared in a computer readable format and capable of being automatically and unambiguously processed.

'e-Invoicing' is the module in e-PRIOR enabling suppliers to view all credit notes and cost claims and related supporting documents, sent to and received from the contracting authority (i.e. the Agency). For suppliers authorised to do so, the e-Invoicing module also allows the creation of invoices, credit and debit notes, and their sending to contracting authorities.

'e-PRIOR': the service-oriented communication platform that provides a series of web services and allows the exchange of standardised electronic messages and documents between the parties. This is done either through web services, with a machine-to-machine connection between the parties' back office systems (EDI messages), or through a web application (the supplier portal). The Platform may be used to exchange electronic documents (e-documents) such as electronic requests for services/supplies (request for quotation, final offer, etc.)

¹¹ Council Regulation (EU) 2017/1939 of 12 October 2017 implementing enhanced cooperation on the establishment of the European Public Prosecutor's Office.

electronic specific contracts, electronic transmission of timesheets, deliverables and its acceptance (service receipt, dispatch advices and receipt advices) or electronic invoices between the parties. Technical specifications (i.e. the interface control document), details on access and user manuals are available at the following website: <https://webgate.ec.europa.eu/fpfis/wikis/display/ePRIOR/Home>

'Interface control document': the guideline document which lays down the technical specifications, message standards, security standards, checks of syntax and semantics, etc. to facilitate machine-to-machine connection. This document is updated on a regular basis and is available on the e-PRIOR website.

'Supplier portal': the e-PRIOR portal, which allows the Contractor to receive or exchange electronic documents, such as quotations, orders, dispatch and receiving advices or invoices, through a graphical user interface. When necessary, these documents can be signed electronically by the authorised persons.

'Third-party service provider': company enabling the exchange of financial and business documents electronically on behalf of the Contractor to and from e-PRIOR via a machine-to-machine communication.

'Web services': machine-to-machine system allowing the Contractor to receive or exchange electronic business documents such as quotations, orders, dispatch and receiving advices or invoices, either through a direct interface or a third-party service provider.

II.21.2 If provided for in the special conditions, the exchange of electronic documents (e-documents) such as requests for services, specific contracts and invoices between the parties is automated through the use of the e-PRIOR platform. This platform provides two possibilities for such exchanges: either through web services or through a web application (the supplier portal). The Agency takes the necessary measures to implement and maintain electronic systems that enable the supplier portal to be used effectively. In the case of machine-to-machine connection, a direct connection is established between the parties' back offices. In this case, the parties take the measures necessary on their side to implement and maintain electronic systems that enable the machine-to-machine connection to be used effectively. The electronic systems are specified in the interface control document. The Contractor (or leader in the case of a consortium) must take the necessary technical measures to set up a machine-to-machine connection and at its own cost. If communication via the supplier portal or via the web services (machine-to-machine connection) is hindered by factors beyond the control of one party, it must notify the other immediately and the parties must take the necessary measures to restore this communication.

If it is impossible to restore the communication within two working days, one party must notify the other that alternative means of communication specified in the special conditions will be used until the supplier portal or the machine-to-machine connection is restored.

When a change in the interface control document requires adaptations, the Contractor (or leader in the case of a consortium) has up to six months from receipt of the notification to implement this change. This period can be shortened by mutual agreement of the parties. This period does not apply to urgent measures required by the security policy of the Agency to ensure integrity, confidentiality and non-repudiation of information and the availability of e-PRIOR, which must be applied immediately.

II.21.3 Validity and date of e-documents

The parties agree that any e-document, including related attachments exchanged via e-PRIOR:

- (a) is considered as equivalent to a paper document;
- (b) is deemed to be the original of the document;
- (c) is legally binding on the parties once an e-PRIOR authorised person has performed the 'sign' action in e-PRIOR and has full legal effect; and
- (d) constitutes evidence of the information contained in it and is admissible as evidence in judicial proceedings.

The parties expressly waive any rights to contest the validity of such a document solely on the grounds that communications between the parties occurred through e-PRIOR or that the document has been signed through e-PRIOR. If a direct connection is established between the parties' back offices to allow electronic transfer of documents, the parties agree that an e-document, sent as mentioned in the interface control document, qualifies as an EDI message.

If the e-document is dispatched through the supplier portal, it is deemed to have been legally issued or sent when the Contractor (or leader in the case of a joint tender) is able to successfully submit the e-document without any error messages. The generated PDF and XML document for the e-document are considered as a proof of receipt by the Agency.

In the event that an e-document is dispatched using a direct connection established between the parties' back offices, the e-document is deemed to have been legally issued or sent when its status is 'received' as defined in the interface control document.

When using the supplier portal, the Contractor (or leader in the case of a consortium) can download the PDF or XML message for each e-document for one year after submission. After this period, copies of the e-documents are no longer available for automatic download from the supplier portal.

II.21.4 Authorised persons in e-PRIOR

The Contractor submits a request for each person who needs to be assigned the role of 'user' in e-PRIOR. These persons are identified by means of the European Communication Authentication Service (ECAS) and authorised to access and perform actions in e-PRIOR within the permissions of the user roles that the Agency has assigned to them.

User roles enabling these e-PRIOR authorised persons to sign legally binding documents such as specific tenders or specific contracts are granted only upon submission of supporting documents proving that the authorised person is empowered to act as a legal representative of the Contractor.

The terms set out in the Special Conditions shall take precedence over those in the Annexes.

Subject to the above, the provisions in the Special Conditions and the Annexes forming part of this specific contract are to be taken as mutually explanatory.
